Acknowledgements

Accomplishment of a milestone for any person alone is extremely difficult. I owe gratitude to all who have contributed to its production and because of whom my research experience has been one that I will cherish for all times to come. For every challenging work one need a inspiring agent to accomplish it.

It is my pleasure to take this opportunity to place my profound acknowledgement to all those who have helped me in this venture. No endeavour is complete without the guidance and cooperation of elders and friends. I have been fortunate enough to get help from all those who directly or indirectly were involved with my work.

I am indebted in my greatest gratitude towards my supervisor Prof Roopa Mathur who is the most dedicated guide and a very tolerant human being. Her support and devotion was commendable. She helped me throughout with a positive approach. I must admit that my association with her has been enriching and enlightening. Her in-depth knowledge of the subject and pursuit for academic excellence has always been a constant source of inspiration to me. In spite of her extremely busy schedule she was always there to guide and steer me in the right direction.

I am grateful to Dr Bhawana Arya for helping me in data analysis.

I owe my sincere thanks to all mothers selected in the sample for their cooperation without which this study would not have been possible.
I extend my profound thanks to my Father-In-Law Lt. Thakur Satyendra Pal Singh, My son Vansh Raj Singh, my mothers Mrs. Sunita Thakur and Mrs. Santosh Kanwar, my Husband Uday Raj Singh, Uncle Shyam Singh Shekhawat, My sister Rama Rathore, Brother Surya Pratap Singh, Brother-in-Law Shakti Raj Singh and my friends for moral support throughout my work.

I would also like to extend my heartfelt regards to Dr. Updesh Kumar (Scientist G, DIPR) who motivated me throughout the phase of report writing.

No words can adequately express my deep felt gratitude to the almighty without whose blessings I could not have thought of having initiated this work. I owe every bit of my progress to him. The present research work could not have come to fruition had it not been for the choicest blessings of the omnipotent on me.

(Sudha Rathore)
