ACKNOWLEDGMENTS

I extend my profound gratitude to my teacher, mentor, guide Prof. Dr. Pangal Sugandhi Rao who remained extremely understanding, kind and supportive to circumvent the various phases of doctoral research endeavor thereby ensuring work progress. She has an admirable quality of ardent academic enthusiasm and penchant for meticulous work. I express my heartfelt thanks to Prof. Dr. Indira Bairy for consistent academic support to enhance research. I am indebted to Dr. G Arunkumar for his able, effective and efficient mentorship. I register my unspoken thanks to Dr. Vishnu Prasad S for sharing his life experiences and promoted scientific discussions throughout this project. All my teachers had a key role in molding my early days of my career where in I could see the world as much as they helped to see. I am fortunate to garner the generous support and cooperation from Mr. Gowrish Rao S who provided a compendium of references and Prof. Dr. Shalini Shenoy, Department of Microbiology, Kasturba Medical College - Mangalore, MU for sharing the laboratory data for the pilot. I thoroughly enjoy and get immensely benefited from erudite and thought provoking daily ongoing discussion with my Faculty colleagues at Kasturba Medical College - Manipal and Mangalore, Melaka Manipal Medical College - Manipal, Kasturba Medical College International Centre - Manipal. Their cohesive viewpoints brings in an panorama of academically enriching environment exclusive only to my alma mater, Manipal University.

I am thankful to Dean Prof. Dr. Sripathi Rao, Associate Dean Prof. Dr. G Pradeep Kumar, Kasturba Medical College, Manipal, MU and Pro Chancellor Dr. H S Ballal, MU, Manipal for their administrative guidance and suggestions in due course of thesis research. I am happy to acknowledge the thoughtful contributions from the Chairman and members of Institutional Ethics Committee - IEC, Kasturba Medical College & Hospital, Manipal to iron out the ethical issues in the research study. I am proud to be part of the legendary Manipal fraternity and thank Padma Bhushan Dr. Ramdas M Pai, Chancellor, MU for providing institutional and laboratory facilities to execute the study.
I place on record the financial support for the research study received from Vision Group on Science and Technology, Department of Science and Technology, Government of Karnataka (VGST, DST, GoK) in the form of Seed Money to Young Scientists for Research. I am thankful to Dr. Shigeru Kohno, Dean, Nagasaki University School of Medicine, Conference Chair for allocation of Travel Grants to participate and present research papers during 7th International Conference on Cryptococcus and Cryptococcosis held at Nagasaki, Japan.

The zeal and scientific prowess of Prof. Dr. K Satyamoorthy, Director, Manipal Life Sciences Centre, MU, Manipal is seminal and he enabled me access the Biotechnology laboratory facilities. I am immensely thankful to Prof. Dr. Harbans Singh Randhawa and Prof. Dr. B M Hemashetter for helpful suggestions. I honor Prof. Dr. Arunaloke Chakrabarti, Department of Medical Microbiology, PGIMER, Chandigarh for provision of control strains and for being a distant source of inspiration to work for the cause of medical mycology. I could learn from Dr. K P Guruprasad, Manipal Life Sciences Centre, the in vitro propagation techniques of nematode model. I became aware of the potential application of image processing softwares from Ms. Keerthana Prasad, MCIS and I thank Mr. Manoj Bhat K for educating me Bioinformatics skills. I am delighted to always be able to seek help and guidance from Prof. Sreekumaran Nair and Mr. Binu V S in understanding the nuances of Biostatistics. The Reviewers and Editors of Scientific Journals need a mention here as they spared their time to carefully read and comment on thesis related manuscripts. Kudos to Mr. Balasubramanyam Vanakadari for his skill with graphic work.

I thank Prof. John Perfect, Director, Duke University Mycology Research Unit (DUMRU), Dr. K.J. Kwon-Chung, Senior Investigator, Chief, Molecular Microbiology Section, NIAID, Bethesda, Maryland and Prof. Tamara L Doering, Department of Molecular Microbiology School of Medicine, Washington University, St. Louis for research discussions and clarifications on fundamental aspects of Cryptococcosis and Cryptococcal taxonomy and biology in the formative days.
Acknowledgments

It was academically enriching to have communicated with Prof. Dr. Arturo Casadevall, Department of Medicine, Albert Einstein College of Medicine of Yeshiva University, Bronx, New York, and Dr. Weiland Meyer, University of Sydney research issues and how to solve them. I am fortunate to be connected with Dr. Peter Williamson, Chief, Translational Mycology Unit, National Institute of Allergy and Infectious Diseases, Bethesda, Maryland for moral support on grant writing skills and career making suggestions and Dr. Thomas G Mitchell, Duke university medical centre who assisted me with requisite skills needed in environmental sampling techniques and enlightened me to ponder on population biology of Cryptococcus.

I bestow my sincere gratitude to research subjects, clinicians and paramedical staff members of Kasturba Medical College & Hospital and other regional hospitals of Manipal group, Government and Private Health care system in Southern Karnataka. My regards are due to Librarians all Technical and Non teaching staff members of Kasturba Medical College & Hospital and Department of Microbiology, Kasturba Medical College-Manipal, MU for their direct and indirect assistance till the culmination of the research work.

Dr. Saadi Abdul Vahab, Dr. T S Murali, Dr. T G Vasudevan and Dr. Vidhu Sankar Babu chipped in their immense support with their quality academic time. Dr. Bincy M George, Dr. Daphne Vincent Santhosh, Dr. Potu Bhagath Kumar and Dr. Shyamaprasad kindled interest by leading in their respective research areas and always shared their experiences. Fellow research scholars at MU, Manipal, Dr. Vasudev Ballal, Mr. Vinod Pallath, Mr. Pratap M Baby, Mr. Sreejith Govindan, Mr. S Sudharsan, Mr. Ganesh Kamath M, Mr. Sreenivasulu M. Reddy, Mr. Vasavi Rakesh Gorantla, Mr. Nishanth B Bhat all remained as part of the support group in venting turmoil of loneliness and kept up the tempo making the rigorous doctoral programme finer and vibrant. I keep in mind the Postgraduate and Undergraduate Students of Kasturba Medical College who ensured my studentship by their untiring bountiful enthusiasm and questioning abilities which fuelled good spirited learning milieu in the mycology laboratory. Their presence is motivated and always made me develop interest and be passionate about the field of Medical Mycology.
Words slither when I bring into memories Mrs. Vinoda Samanth and Mr. Samanth for their patience and kindness in providing me accommodation where I perched in comfortably. Special thanks to Mrs. Blessy Prabha Valsaraj, Mr. P. Valsaraj who remained cordial and took initiatives to keep alive the spirit of research in me.

I am truly overwhelmed by the unfathomable, and unconditional support from my parents Shri. P K Yegneswaran and Smt. Girija Yegneswaran who molded me and showered their blessings and affection, making this arduous journey tranquil and a meaningful one. Sister Smt. Deepa Narayanan being emotional shock absorbers at ebbing times with her gently counsel and advices. Warmest regards and millions thanks to my soul seeker and the blissful almighty for his omnipresence making life in this planet an eclectic experience.

A man can only try and it requires the effort of many to make him succeed, keeping this dictum in mind I remain humble at this juncture and with trepidation cease to enlist and I apologize if have omitted someone worthy of mention. I cherish my thesis research days of academic celibacy and intellectual exile. I now understand that a research career demands high intelligence, tremendous drive with energy, great organizational and administrative ability, as well as considerable self-confidence throughout the course of life in the pursuit of knowledge to make the place we dwell better off before departing to future sojourn. Thank you one and all from abyss of my heart.

Peralam Yegneswaran Prakash
