First, I bow in reverence to the Almighty, the omnipotent, for it is indeed his blessing alone which provided me enough zeal to complete this work.

I feel much pleasure to express reverence and gratitude to my supervisor Dr. Samiullah khan for keeping a watchful and discerning eye over the study, providing valuable guidance, and help in overcoming the hurdles throughout the course of this work.

I am highly grateful to Prof. Bahar. A. Siddiqui, Chairman, Department of Botany, A.M.U. Aligarh for providing the necessary facilities, suggestion and kind help to carrying out this work.

I own an expression of thanks to Dr. Kouser Parveen and Dr. Rafiq A. Wani research scholars for their cooperation and encouragement.

I feel pleasure to express my appreciation to Rubina Perveen and Sonu Goyal, my lab mates for their help, suggestion and cooperation throughout the study.

My gratitude knows no bounds when I think of the love, cooperation and help extended by my caring and loving friends Noushina, Aakshhi, Mustabeen, Bushra, Renu, Aasia, Irm, Monika, Honey, Zeba.

I feel short of vocabulary to express my sincere thanks to my ever loving and dearest parents and sisters who lit the flame of learning in me and whose affection, sacrifice, devotion and constant encouragement helped me to gain this success.

Lastly my love, regards and best wishes to all well wishers.

Alka
