CHAPTER I

INTRODUCTION

Agricultural labour, Present position of Agricultural labour in India, Category of agricultural labour, Growth in the number of Agricultural labour, Causes of growth in the number of Agricultural labour:

• Increase in population:
• Decline of cottage industries and village handicrafts:
• Eviction of small farmers and tenants from land:
• Uneconomic holding:
• Increase in indebtedness:
• Spread of the use of money and exchange system:
• Capitalist agriculture:

Conditions and problems of Agricultural Labourers:

• Marginalization of agricultural workers:
• Wage and income:
• Employment and working condition:
• Indebtedness:
• Feminization of Agricultural labour with low wages:
• High incidence of child labour:
• Increase in migrant labour:
• The landlord labourer relationship:

Measures adopted by the government:

• Minimum wages:
• Abolition of bonded labour:
• Provision of housing sites:
• Providing land to landless labourers:
• Special schemes for providing employment:
• Special agencies for Development:
• Other measures:
• Measures for improvement:
• Better implementation of legislative measures:
• Improving the bargaining position:
• Resettlement of Agricultural workers:
• Creating alternative sources of employment:
• Improving the working condition:
• Public work program:
• Raising the standard of living:
• Social Security:
The objective of the study, Reference year, The scope of the study, Research Methodology:
• Selection of the area:
• Selection of the respondents:
• Method of data collection:
• Statistical Tools:

CHAPTER II  PROFILE OF THE STUDY AREA  28 - 44

Andaman and Nicobar region, History, Agriculture, Animal Husbandry and Veterinary Services, Soils, Climate, Aboriginals, Settlement:
➢ Penal Settlement
➢ Colonization and Rehabilitation

CHAPTER III  REVIEW OF LITERATURE  45 - 67

CHAPTER IV  THE SOCIO ECONOMIC CHARACTERISTICS OF AGRICULTURAL LABOURERS OF ANDAMAN AND NICOBAR ISLAND  68 - 115

Socio-economic profile of the sample households in the study area, Land utilization pattern of the study area, Land use pattern and Production, Population, Transport and Communication:
Roadways:
Sea (waterways):
Airways:
Selection of household, Communities wish distribution of sampled households, Age and Sex Wise Distribution of Sample Households, Sex Wish Distribution, Family Status, Size of the Family, Type of Family, Housing Condition, Marital Status, Educational status, Caste and Educational Levels:
Occupation and Educational Level, Occupation/Employment and Caste, Distribution of cultivated area and average land holding, Accommodation, Demographic features of sample household, Investment in fixed capital, Household income, Income variability among Tsunami Effected and non Effected Area, Pseudo Gini Coefficient ratio, Lorenz Curve:

CHAPTER V ANALYSIS OF ECONOMIC CONDITION 116 - 135
OF AGRICULTURAL LABOURERS

Job Satisfactions, Periodically Payment of Wage, Income of Labourers, Twenty point programs, Indebtedness, Electricity, Living standard of the Sample Households, Awareness of the family planning programmers, Short and Long Terms Migrant, Employment pattern.

CHAPTER VI EFFECTS OF THE TSUNAMI DISASTER IN 136 - 202
THE ECONOMIC CONDITIONS OF AGRICULTURAL LABOURERS IN
ANDAMAN AND NICOBAR ISLAND

Introduction, National Policy on Disaster Management, Disaster Management, Current Institutional Mechanism and Policy Framework, National Crisis Management Committee (NCMC), Information about property loses and government relief and aids of the sample households, Information about death / missing person from the family of the sample households, Government compensation of the sample households, Other compensation by charitable trust of the sample households, Education level after tsunami disaster of the sample households, Effected area, Earning and Non Earning Dependency of the sample
households of the tsunami, Job Satisfaction of the Sample Households after Tsunami Disaster of the Sample, Households, Medical facilities, Drinking water facility of the sample households at Tsunami effected Area, Migration and Tsunami Disaster of the Sample Households, Poverty (BPL) People of the Sample Households after and Before Tsunami Disaster, Employment of the sample households after the tsunami disaster, Global View,

A BRIEF SCENARIO ON ASIAN TSUNAMI EFFECTED COUNTRIES

Introduction of Indian Ocean earthquake, Quake Characteristics, Aftershocks and other earthquakes, Power of the earthquake, Tsunami characteristics, Signs and warnings, Unfamiliarity with warning signs, Retreat and rise cycle, Damage and casualties, Countries affected, Casualties in historical context, Human component in magnitude of damage, Humanitarian, economic and environmental impact, Economic impact, Environmental impact, Other effects, Humanitarian response to the 2004 Indian Ocean earthquake, Humanitarian situation, Contributing countries and supra-national organisations, Criticism of donor response, Criticism of recipient response, Pledged amounts as percentages of GDP, Asia and Oceania, USGS list of significant earthquakes, Other earthquakes not listed by the USGS, Recent earthquakes not listed above, Largest earthquakes by magnitude, Deadliest earthquakes on record, Epicenter map from NOAA, Earthquake and damage, Tsunami, Humanitarian response, Navigation, search, Need for evaluation, Governance, Thematic Evaluations, The six initial findings, Relief was effective, Unprecedented response, Local capacity underestimated, Capacity of the humanitarian system is limited, Agencies focus too much on "brand" promotion, Recovery is proving far more difficult than relief.

CHAPTER VII SUMMARY, CONCLUSION AND SUGGESTIONS OF THE STUDY

Part: A: Summary

Introduction, Plan of the Study, Objectives of the Study, Study Period, Limitation of the Study, Research Methodology, Selection of the
CONCLUSION

Part B: SUGGESTIONS
