CONTENTS

List of publications  i
List of tables  ii
List of figures  v

CHAPTER 1  General Introduction  1
References  28

CHAPTER 2  Kinetic spectrophotometric method for determination of nifedipine in pure form and pharmaceutical preparations  39

CHAPTER 3  Analysis of diltiazem hydrochloride  53
[A] Extractive spectrophotometric methods for determination of diltiazem hydrochloride in pharmaceutical formulations using bromothymol blue, bromophenol blue and bromocresol green  55
[B] Spectrophotometric determination of diltiazem hydrochloride with sodium metavanadate  70

CHAPTER 4  Analysis of amlodipine besylate  81
[A] Spectrophotometric determination of amlodipine besylate by charge-transfer complex formation with p-chloranilic acid  84
[B] Spectrophotometric method for determination of amlodipine besylate in drug formulations with ninhydrin  97

CHAPTER 5  Spectrophotometric method for determination of verapamil hydrochloride in pharmaceutical formulations using N-bromosuccinimide as oxidant  111
