LIST OF PUBLICATIONS

[1] Method for determination of nifedipine in pure form and in pharmaceutical preparations

[2] Extractive spectrophotometric methods for determination of diltiazem hydrochloride in pharmaceutical formulations using bromothymol blue, bromophenol blue and bromocresol green

[3] Spectrophotometric determination of diltiazem hydrochloride with sodium metavanadate

[4] Spectrophotometric determination of amlodipine besylate by charge-transfer complex formation with p-chloranilic acid
   Anal. Sci. (Japan) revised manuscript submitted

[5] Spectrophotometric method for determination of amlodipine besylate in drug formulations with ninhydrin
   Farmaco, Elsevier (communicated)

[6] Spectrophotometric method for determination of verapamil hydrochloride in pharmaceutical formulations using N-bromosuccinimide as oxidant
   Mikrochim. Acta, (communicated)
