Proposed Plan
Proposed Plan for Doctoral Research

The education and empowerment of women is seen as a key avenue that exists in nearly all societies. Education and empowerment is an important end in itself and it is also a term strategy for advancing nation progress.

The proposed plan for Doctoral Research of Women Education and Empowerment in Aligarh District, would be designed basically on the geographic norms. District is proposed as the unit for the study based on secondary source of data. However, this analysis cannot give all the details which are required in the proposed research. Therefore, some of the relevant material will be collected from the primary sources to get the validity of secondary sources. For the data processing standard and simple statistical techniques will be drawn for the clear representation of summarized data. The proposed tentative plan for doctoral research is given below:

- Introduction
- Aims and objectives
- Data base

The data will be collected both from primary and secondary sources. The study is mainly based on primary sources.

Data from primary sources will collect through:

1. Survey of the study area
2. Questionnaires based on interview will conduct with the respondents

Data from secondary sources will be collect principally from various bulletins of offices.

i. Nagar Nigam Office, Aligarh
ii. Seminar Library, Department of Geography.
Methodology:

To examine the socio-economic condition of women and is based on the following methods.

- Questionnaire will prepare to collect the relevant information like location of the study area for collecting comprehensive information about, the women education and empowerment and their socio-condition.
- Simple statistical technique has been applied for the analysis of primary and secondary data collected from field survey and from various agencies.
- The advanced cartographic technique will be used to visual interpretation.

The investigation will be carried out under the following heads.

- Introduction
- Concepts of Women Education And Empowerment.
- Determinants of Women Education and Empowerment.
- Data base and methodology
- The Study Area
- Conclusion and Suggestion
- Bibliography
- Appendix
