ACKNOWLEDGMENTS

By the grace of Almighty Allah, I feel extremely happy to express my sincere gratitude to my research guide, Dr. Mukhtar A. Khan, for his generous, indispensable advice and positive criticism during the course of this study, despite his busy schedule. Besides providing indispensable guidance during each and every phase of my research work, he has been a constant source of inspiration to me. I am heavily indebted to him for his benevolent attitude and advice on personal and professional level which strengthened my morale, punctuality, determination and will power. I shall always remember his painstaking interest, patience and constant encouragement despite all my lapses and shortcomings.

I would particularly like to thank Prof. Absar Mustafa Khan, Chairman, Department of Zoology and Dean faculty of Life Science for providing necessary laboratory facilities.

I am also thankful to Prof. Asif A. Khan, Prof. Iqbal Parvez, Dr. Malik Irshadullah and Dr. Abbas Abidi.

I am also indebted to all my lab seniors, Ms. S. Fatma Abidi, Ms. Tabassum Q. Siddiqui, and Ms. Farhat.

I have been fortunate enough to get the support of my friend Ms. Habeeba A. Kabeer, Maryam and Ms. Nuzhat Parveen.
I am highly thankful to my best friend and my lab colleagues Ms. Syeda Sadaf for her help and cooperation without which this work would not have reached this horizon.

Finally I would like to express my special thanks and indebtedness to my Ammi and Papa for their sacrifice, unconditional love and never ending care without whom this effort may not have borne fruits. I wish to acknowledge the superb assistance, affection and sustain moral support shown by my sisters Ms. Hijab Zehra, Ms. Aftab Zehra and Ms. Mursaleen Fatima and brothers Mr. Furquan Husain and Mr. Aman.

Lastly my love, regards and best wishes to all the people who were involved and have made the culmination of this dissertation, for their kind help.

(Amin)
