ACKNOWLEDGEMENT

A research study is like a long journey undertaken in search of hidden gems. In fact it has been a rather long voyage for me doing this study of the values and self-efficacy of teachers of catholic schools of Gujarat. But it is comforting to me that this arduous journey was not conducted alone. Helping and guiding hands were many at every stage of this study. There were many whose guidance and assistance helped and encouraged me to complete it.

Words cannot contain my gratitude towards my guide Dr. Bharat Joshi. He was like a light house shedding light and illumining the path. He was like the captain of a ship steering it safely through turbulent waters. Without his academic and technical guidance and paternal encouragement, I would have never completed this study. His guidance was there whenever it was required throughout all these years. Whenever I was stuck up on my way, not knowing what to do next, he was ever there with his helping hands. I was like a small child learning to walk holding the hands of a loving father. I am indebted to him for his constant and continuous inspiration and guidance.

The help and encouragement of the head of the department of education, Bhavnagar university during the years of my study, Dr. Chandrakant Bhogayata, Dr. J.P.Maiyani, and Dr. Jagdish Ramanuj cannot be forgotten. They were ever ready to help whenever there was any need. Dr. Jayant Vyas and other members of the department of
education, Bhavnagar University were extremely helpful. More over Dr. Chandrakant Bhogayata and Dr. Jayant Vyas were among the scholars who helped me in the logical validation of the Guajarati version of the Teacher Self-Efficacy Scale. A simple ‘Thank You’ may not suffice to express my gratitude to them.

I gratefully remember the Principals and teachers of the catholic schools of Ahmedabad diocese, Gandhinagar Arch diocese, Baroda diocese and Rajkot diocese. They have graciously accepted my request and have made all the arrangements to conduct the survey among the teaching staff of their schools using the Teacher Values Inventory and Teacher Self-Efficacy Scale.

I gratefully acknowledge the generous assistance rendered by Mr. Sivbhadrasinh Chauhan, Mr. Parthiv Dodia and other teaching and non teaching staff members of Christ School, Bhavnagar and Fatima Convent Primary School, Bhavnagar for the tabulation of data. I acknowledge the support given by my dear parents, brothers and sisters, friends and well wishers who are very eager to see me complete this study. At this final stage of my study I raise my heart filled with immense gratitude, in humble prayer to God Almighty in the abundance and mercy of whose care I live and prosper. It is only because of His care, love and mercy that I am able to complete this study.

Bhavnagar
