ACKNOWLEDGEMENT

This thesis is the end of my journey in obtaining Ph.D. I have not travelled in a vacuum during this journey. The thesis has been kept on track and seen through to completion with the timely help and support of many people, who are either directly or indirectly involved in this work. At the end of my thesis, it is a pleasant task to express my sincere gratitude and thanks to all those who made this thesis possible and unforgettable experience for me.

I am extremely indebted to my guide Dr. Manpreet Singh, Department of Computer Science & Engineering for providing necessary resources to accomplish this research work. His encouragement and personal guidance have provided a good basis for the present thesis. I owe my most sincere gratitude to the Head, Department of Computer Science & Engineering, M. M. University Mullana Ambala for his able guidance, the efforts and care he has put into my work. His valuable suggestions in restructuring write up, proof reading and graphical representations helped this work to take a proper shape. I am thankful to Dr. Sandeep Goyal, Department of Computer Science & Engineering, M. M. University Mullana Ambala for his kind support and encouragement. Specifically, I would like to thank Mr. Rohit Vaid who helped in rectifying errors during thesis write up work.

At this juncture I think of my parents whose sacrificial attitude in life and great untiring efforts enabled me to reach the present position in life. I am forever indebted for their encouragement and moral support in attaining my goal.

Last but not the least; I am ever thankful to my family that has supported me strongly throughout this work. I would like to thank my wife Ms. Sandhya for her continuous encouragement and my sweet daughters Ms. Sanjana & Ms. Sanchita for their love & support.
