ACKNOWLEDGEMENT

No work can be completed successfully without well wishes of elders, inspiration and encouragement, the same was the experience of my research work. I express my deep sense of gratitude and indebted to my research supervisors, Dr. Harmesh Kumar Kansal and Dr. Shankar Singh for providing precious guidance, inspiration and regular supervision throughout the course of this work. Their constructive criticism and meticulous efforts made it possible to present the work contained in this thesis. My interactions with them academic or otherwise have always been fruitful and pleasant.

I would like to thank Prof. Sunil Pandey, Director, SLIET Longowal, for creating a research-oriented environment at SLIET campus. I also thank Prof. Pardeep Kumar, Head and Chairman, DRC (Mechanical) and members, DRC for their valuable suggestions and support.

I am grateful to Dr. Harpreet Singh, Associate Prof. School of Mechanical materials and energy engineering and Incharge central research facilities for providing his support for SEM and XRD facilities.

I would express my gratitude to Dr. Akshay Dvivedi, Assistant Prof. and R.S Sharma Sr. Technician at IIT, Roorkee for extending their cooperation in lab facilities.

I would like to thank Mr. Sulakhan Singh, Technician (Machine shop) for extending help during experimental work on EDM machine at SLIET, Longowal.

I am thankful for my wife Mrs. Vandna and my mother Smt. Ram Pyari for their inspiration, tolerance, sacrifice, moral support and encouragement during my research period. The thesis would remain incomplete without mentioning the contribution and support of my late father Sh. Nasib Ram Ji for providing me the inspiration to start my research work. He had a significant role in molding my career and inspiration for higher studies.

Finally, I wish to acknowledge the financial support given by the All India Council for Technical Education (AICTE) New Delhi under RPS project proposal scheme.

Rajesh Choudhary
