Acknowledgments

This thesis arose in part out of years of research where I have worked with the people whose contribution in assorted ways to the research and making this thesis deserves special mention. It is my pleasure to convey my gratitude to them all in my humble acknowledgement.

It is my honor to work under the guidance of Dr. M S Vidyasagar, Former Professor & Head, Department of Radiotherapy and Oncology, SS-BCHRC, Manipal and Dr. Manohara Pai M M, Professor, Information and Communication Technology & Associate Director, Innovation Center, MIT, Manipal University, Manipal.

I would like to record my sincere gratitude to Dr. Vidyasagar for his supervision, expert advice and guidance in the various stages of research that resulted in making the system more practical and successful. His critical comments and invaluable assistance marked the successful completion of this study.

It is my deep sense of gratitude to Dr. Manohara Pai M M for his supervision, advice, guidance and motivation from the very early stage of this research as well as giving me extraordinary experiences throughout the work. His expertise provided me unflinching encouragement and support exceptionally inspire and enrich my growth as a student and a researcher.

I convey my special acknowledgement to Dr. B M Vadhiraja for his advice, supervision; constructive comments that made him a backbone of this research. I am extremely benefitted with his critical comments at the initial stage of the research and also towards the end. I am grateful in every possible ways and hope I will get the same support in my further research.

The research is not possible without the collaborative effort and input from the experts of respective domain. I am very grateful to the doctoral committee members Dr. Rajasekharan P Warrier, Dr. N Sreekumaran Nair, Dr.
Suresh Rao, Dr. Kamalaksha Shenoy, Dr. Sathish Prasad Rath, and Dr. Sabu K M for providing their precious time, advice, support, monitoring the progress of the work and all valuable comments for the successful completion of this research work.

I gratefully acknowledge the contribution and effort of Mr. Upendra Dube in designing and developing the system using the recent technology in practice.

I am very grateful to Dr. Sabu K M, HOD, Health Information Management for all his advice and support throughout my research work.

Collective and Individual acknowledgement are also owed to my colleagues Mrs. Dola Saha, Mrs. Reshmi B and Mrs. Geena whose presence somehow perpetually refreshed, helpful and memorable. I am indebted to my teacher and now colleague Mrs. Dola Saha for always supporting me with her thoughts, idea and encouragement throughout the study.

It is a pleasure to express my gratitude wholeheartedly to Dr. B Rajashekhar, Dean, Manipal College of Allied Health Sciences, MU, Manipal for his kind support throughout my study.

I would like to thank the hospital authorities of various Cancer Institutes of Southern Indian for allowing me to conduct the survey among the oncologists of their institutions.

It is my pleasure to acknowledge all the oncologist who had participated in this study and given their valuable and expert advice for choosing the content for the system.

I would like to thank everybody who was important to the successful realization of thesis, as well as expressing my apology that I could not mention everyone personally.

Last, but not the least, I thank the almighty for guiding me and giving
me the much needed mental strength to continue my work against all kinds of obstacles.

Finally, I owe sincere gratitude to my parents and family for their ever understanding support all through my work and for the persistent confidence shown for me always.
