ACKNOWLEDGEMENT

It is the moment of gratification and pride to look back with a sense of contentment at the long travelled path, to be able to recapture some of the finest moments and to be able to thank infinite number of people who have supported and encouraged me throughout my work and helped me to reach the stage of writing this page.

With the blessings of God, the Almighty and my Parents, I have been able to overcome all difficulties and obstacles coming my way, and thus I humbly owe the completion of this thesis to them.

It is my proud privilege and honour to express my deepest sense of gratitude to my Guide, Dr.A.K.Saluja, Professor & Principal, A.R.College of Pharmacy and G.H.Patel Institute of Pharmacy, Vallabh Vidyanagar. I have been amazingly fortunate to have an advisor who gave me the freedom to explore on my own, and at the same time guided me to recover when my steps faltered. He taught me how to question thoughts and express ideas. His patience and untiring support helped me overcome many difficult situations and without his keen interest and valuable suggestions this work would not have seen the light of the day.

I am grateful and thank to Dr.V.S.Patel, Hon. Director, SICART for providing the necessary facilities and infrastructure required for completion of this research work.

I am pleased to thank Dr.(Mrs.) P.D.Sachdeva, Associate Professor, Department of Pharmacology, A.R.College of Pharmacy and G.H.Patel Institute of Pharmacy, Vallabh Vidyanagar for inspiring and supporting me at every step. I am extremely grateful to Dr.R.S.Mehta,
Dr. V.M. Vaghela, Dr. H.R. Prajapati and all other staff members of ARCP, for their motivation and guidance.

I extend my sincere gratitude to Late Mr. Dhirubhai Dalwadi, Mrs. Hemaben Patel, Mr. R.R. Machhi & Mr. R.B. Thakor, non teaching staff members of Department of Pharmacognosy, ARCP for their untiring, unconditional help and support during the course of my research work.

Thanks are due to Dr. Gautam Chauhan for his cooperation and timely assistance in analytical work.

My friends Dr. Dhadla Ram Choudhary & Ms. Gowri have always cheered me up when I used to loose hop. Their support and care helped me overcome setbacks and stay focused on my study. I greatly value their friendship and I deeply appreciate their belief in me.

I am profoundly indebted to my parents (Mummy, Mrs Girish Sharma and Pappa, Mr. Vinod Kumar Sharma) for inculcating in me the dedication and discipline to do whatever I undertake well. They have always stood beside me in my most difficult times. Thanks to both of them for giving me the strength to reach the stars and chase my dreams. I would like to make a special mention of the love and words of encouragement showered upon me by my parents, my brother Mr. Kapil and sister Ms. Priti. Without their moral support I would not have reached this stage.

Most importantly the unfailing love, care, support and patience showered upon me by my husband Dr. Rajiv, needs a special mention and acknowledgement. I would like to express my heart-felt gratitude to him.
I would also extend my hearty thanks to my father-in-law and mother-in-law for their cooperation and moral support.

Above all thanks to my only loveliest daughter on earth, Manasvi to make my life beautiful and meaningful. She has always been a source of inspiration and motivation.

Though only my name appears on the cover of this thesis, a great many people have contributed to its production. I owe my gratitude to all those people who have directly or indirectly made it possible and because of whom my experience has been one that I will cherish forever.

Mona Rajiv Kukkar
