</table>
Plate-20. Callus induction through leaf segment of *Tecomella undulata* with auxins and cytokinins in various combination.

Plate-21. Callus induction through leaf segment of *Tecomella undulata* with auxins and cytokinins in various combination.

Plate-22. Shoot regeneration in internodal explants of *Tecomella undulata* 213

Plate-23. Shoot regeneration in internodal explants of *Tecomella undulata* 214

Plate-24. Shoot regeneration in leaf segments of *Tecomella undulata* 220

Plate-25. Shoot regeneration in leaf explants of *Tecomella undulata* 221

Plate-26. Shoot regeneration in internodal explants of *Tecomella undulata* 226

Plate-27. Shoot regeneration in internodal explants of *Tecomella undulata* 227

Plate-28. Root induction in intermodal explants of *Tecomella undulata*. 239

Plate-29. Root induction in *Tecomella undulata*. 240

Plate- 30. Hardening of Plantlets. 243

Plate- 31. RAPD analysis in mother plant and *in vitro* developed plant. 245

Plate- 32. RAPD peak data files. 246-248
