ACKNOWLEDGEMENT

It gives me great pleasure to express my deep sense of gratitude towards my supervisor Dr. Y.K. Gupta, former Reader and Head, Department of Physics, M.S. College, Saharanpur for his invaluable advice, expert guidance and encouragement during the present investigation.

I am indebted to Dr. A.K. Gupta, Reader, Department of Mathematics, M.S. College, Saharanpur, for his invaluable advice and suggestions without which it was impossible to complete the work.

I am also grateful to Dr. R.P. Vats, former Head, Dr. K.D. Tyagi, former Head, Sh. A.K. Dimri, Head of Physics Department, M.S. College, Saharanpur and all my respected teachers of Physics Department, M.S. College, Saharanpur, for their cooperation and guidance in the occurrence of this work.

My sincere thanks are due to Dr. K.K. Sharma, Principal, M.S. College, Saharanpur, for readily providing the essential facilities.

I have no words to express my considerable debt of gratitude towards my father Sh. S.K. Savita and family members whose efforts and affection have been a continuous source of my inspiration all through my life.

I owe my deepest regards to my wife whose affectionate patient and protective in creating a congenial atmosphere which is so essential for successful completion of such a work.

In spite of all caution and care, it is presumed that some error might have crept in for which I may very kindly be pardoned.

Anuj Kumar
