Offer all thy works to God, throw off selfish bonds, and do thy work.
No sin can then stain thee, even as waters do not stain the leaf of the lotus.

- Bhagavat Gita

All praise and glory to Almighty God for the wisdom and perseverance that he has bestowed upon me throughout my life.

This thesis is the result of last few years of work whereby I have been accompanied and supported by many people. It is a pleasant aspect that I have now the opportunity to express my sincere appreciation to all of them.
I am greatly indebted to several people who have helped me in this research endeavour.

She was always there cheering me up and stood by me through the good times and bad.

Finally, I would like to thank my parents, who through my childhood and study career had always allowed me to follow my heart and inquisitive mind in any direction that took me. My parents inculcated in me the values of life. I would like to thank my younger brother Shrikant and sisters for their unflagging love and encouragement in pursuing my career.
