ACKNOWLEDGEMENTS

Completion of any Project work is not an individual effort, rather it's a team effort, so as my Ph.D. project and thesis is never solely the work of the author. Completing this thesis, a product of several years' work, support and encouragement has come from different sources in various ways. Many people have contributed in completing my Ph.D. work, my dissertation, to my education and to my life, in innumerable ways. Now, I feel it is the right time and opportunity to remember and express my sincere thanks to all of them, who have greatly inspired and supported during my Ph.D. studies at Sri Krishnadevaraya University, Anantapur and also in the writing of this thesis.

First and foremost, I express my deepest sense of obligation and gratitude to Dr. K. Nagabhushan Raju. Associate Professor and Head, Department of Instrumentation, S. K. University, Anantapur for his invaluable guidance, encouragement, academic stimulus and generous help throughout my research work from the inception to its completion, I am really fortunate to have him as my research supervisor, I learned many technical and management skills from him, which has helped me not only in completing this thesis, but also in solving many difficulties in my personal and professional career. I always admire his discipline, sincerity, patience and dedication in all his works.
I record my deep sense of gratitude and respect to Prof. K. Malakondaiah, Chairman BOS, Department of Instrumentation, S. K. University, Anantapur for his constant encouragement and valuable suggestions throughout my research. Also, I am extremely thankful to all the teaching and non-teaching staff of the Department of Instrumentation, S. K. University, Anantapur for their continuous help and cooperation during my research work.

I would like to thank my fellow researchers and friends Dr. Nagabhushana Katte, Mr. Chandra sekhar and Mr. Mani kumar for their help and company during my research work.

I am always grateful to the authorities of S. K. University, Anantapur for providing me all the facilities to carry out research studies.

I will be always grateful to V.V. Sangha, Bellary and the management, who has given me the first platform to build my professional career as a lecturer at RYMEC formerly known as Vijayanagara Engineering college (VNEC), Bellary and later as a Asst.Prof and Head, Dept of E&CE and presently as a Professor and Head, Dept of Instrumentation Technology at Proudhadevaraya Institute of Technology (PDIT), Hospet and given me the opportunity to serve the institutions at different capacities. Also, I am extremely thankful to them for extending full support, cooperation, facilities and necessary infrastructure for carrying out my research work.
It's duty to express my sincere and heart felt thanks to then, Chairman's of PDIT, Hospet. *Sri. B.V. Basavaraj* and *Sri. T.H.M. Gurumurthy*, who had encouraged and motivated me to pursue my Ph.D. studies and I also record my special gratitude to the present Chairman of PDIT, *Sri. H. Biddappa* for his help and support in completing my Ph.D. studies and thesis.

I shall ever remain grateful and indebted to my chief mentor and beloved teacher *Dr. P. Khageshan*, Principal, PDIT, Hospet. I am and will forever remain duty-bound to him for his kind co-operation, encouragement and help extended that went even beyond the academics. He is a constant source of inspiration to me in completing my Ph.D. studies. I express from bottom of my heart sincere thanks and gratitude to him. He is like a parent, who has always supported and co-operated me to come out of stress, whenever I was in difficulties both in academic and administrative pressures and extended all the necessary facilities and infrastructure from the college, required in completing my research work.

I would like to express my special thanks to *Sri. A. Thimmangoud*, then Principal of PDIT, Hospet, who had helped me in registering my Ph.D. at S.K.University, Anantapur.

My sense of appreciation and thanks are due to my beloved colleagues, teaching and non-teaching staff and students of both Instrumentation and Electronics Depts. of PDIT, for sharing their views, ideas and my load, and also I thank all teaching and non-teaching staff of all other departments,
library staff of PDIT, who have helped in one way or the other in completing my research work.

I am indeed obliged to all the R&D technical crew of ALS, Bangalore, specifically Dr. Kashinathan, Mr. Sunil, Mr. Lingraj, Mr. Sujeet, Mr. Ganesh and Mrs. Vasumathi for their technical assistance and cooperation during my research work.

In addition, I acknowledge my indebtedness to all those scholars, whose works and references I have drawn upon. They have not only enriched my knowledge and understanding about the subject, but also served as the source of inspiration.

My special thanks to Dr. C. B. Akki corporate trainer, Wipro technologies Pvt. Ltd, Bangalore, who came as a ray of light in the darkness of my research work.

I will be ever grateful to Anand, civil engineer, S. K. University, my brother Gongadi Ramappa and all his family members for their kind cooperation and support in completing my work at S.K.University, Anantapur right from the day one, which has made things easy and memorable.

I owe hugely to my respected parents-in-law and my parents, their permanent love and confidence in me have encouraged me to go ahead in my studies and career. Specifically, I want to appreciate them for taking care of my children.
Sri. Shashidhar S. Sonoli, the creator of my life and the most important person i.e., My father who taught me the basic morals and values of life and he is the one who has inspired and made me to understand the value and importance of education in life, right from my childhood. I take this opportunity to share my happiness for having fulfilled his dream of me securing the highest degree of education i.e., Doctorate degree. To whom, I will ever be thankful and I don’t have any words to express my gratitude and feelings.

I express my deepest sense of gratitude to my beloved husband, Sri. Chitriki Thotappa, Chief Placement officer and Assistant Prof, Dept of Mechanical Engineering, PDIT, Hospet, who stood beside me day and night like a pillar and supported me in every phase of my life, he was like a backbone for me to pursue Ph.D. studies. I wholly dedicate this thesis to my husband and family.

I express my love to my sweet little children Chinnu and Sonu, my love and longing for them are beyond words. They are the softest point of my heart. I really owe the almighty for giving me such understandable children who have adjusted themselves in the given situation.

Finally, last but definitely not the least, I would like to thank all those who have helped directly or indirectly in completing my research work.
