ACKNOWLEDGEMENT

I would like to express my special appreciation and thanks to my advisor, well-wisher, Dr. Ganesh Venkatraman, Associate Professor, Department of Human Genetics, you have been a tremendous guide for me. I would like to thank him for encouraging my research and for allowing me to grow as a research scientist. His advice on both research as well as on my personal career have been priceless. I would like to express my deepest gratitude to him, who has always been approachable. He continually and convincingly conveyed a spirit of journey in regard to research and an excitement in regard to teaching. Without his guidance, persistent and timely help this dissertation would not have been possible. Being his student and also in his team is always a pride for me.

I am using this opportunity to express my sincere gratitude to Dr. Virander Singh Chauhan, ICGEB who provided the facility and supported me throughout the stay at ICGEB. I am thankful for his aspiring guidance, invaluably constructive criticism and friendly advice during the work allowing me to get hands-on experience in handling various equipments at ICGEB.

I am grateful to Dr. Solomon F.D. Paul, Head, Department of Human Genetics and Dr. P. Venkatachalam, Professor, Department of Human Genetics, for motivating and encouraging me in several ways to complete my assignment successfully.

Besides my advisor, I would like to thank my research advisory committee members: Dr. Kandaswamy. D and Dr. Malathi Raguathan for their constant encouragement and insightful comments.

I would like to place my gratitude to Dr. S.P. Thyagarajan for providing me with the opportunity to utilize the infrastructure and resources at the central research facility.
I would like to thank Ms. Jiban J Panda, ICGEB who helped me in my days at ICGEB and also in preparing the manuscript.

I thank my lab mate Ms. Gowri M for the stimulating discussions, for the sleepless nights we were working together before deadlines. I would also like to thank Mr. Tamiz Selvan, Ms. Akila and Ms. Priyanka, for their timely help in need and making each day in SRMC a memorable day. I would also render my sincere thanks to Ms. Deepa Parvathi, lecturer, SRU for helping me in doing my genotoxicity studies and constantly supporting me with her valuable suggestions.

Over the course of my Ph.D, I have been blessed to be associated with the faculties from my own department Dr. Ravi, Dr. V. Vettriselvi, Dr. J. Vijayalakshmi, Dr. Harpreet Kaur, Ms. Teena Koshy, Mrs. Andrea Mary, Mrs. Nadhini and Mrs. R. Selvi for their constant encouragement and invaluable inputs.

My sincere thanks also to the Research scholars, Ms. Ganga Baskar, Ms. Mathangi, R, Mr. Anbarasan, Ms. Safa, Ms. Shruthi, Mr. V. R. Karthikeyan, Mr. Hemadev, Mr. Venkateswarlu, Ms. Anjana and Mr. K. Karthik.

I sincerely thank the management of Sri Ramachandra University for allowing me to do my Ph.D. in this esteemed university.

I take this opportunity to thank DBT, Government of India, New Delhi and Sri Ramachandra University Founder Chancellor Research Fellowship for providing financial assistance which supported me to perform my work comfortably.

Words cannot express my gratitude to my FAMILY for all of their sacrifices that they had made for my betterment and also their prayers for me was what sustained me till date. Above all I thank lord almighty, JESUS for his unconditional love, grace and blessings throughout.
