ACKNOWLEDGEMENTS

While studying the various issues centred around the problem of poverty in India, it is noticed that, by following piecemeal approach, revealing major economic characteristics mainly pertaining to sources of income, saving habits and investment, of landless BPL families in least developed rural area, as one of the larger segment of general poverty phenomena would help in recognizing the potential capabilities of these families in improving their economic status, and in suggesting accurate policy measures for getting rid of these families from their pauperism.

Many of the research experts and colleagues motivated me for carrying out the research in this areas of study.

At the very outset, I am sincerely thankful to Dr. V. B. Jugale, Professor, Department of Economics, Shivaji University, Kolhapur for his warmth encouragement, polished suggestions and patience bearing with me at all stage of my research work.

I express my deep gratitude to Dr. R.G. Dandge, Professor and Head of Department of Economics, Shivaji University Kolhapur, for his valuable advice to complete the research work.

I must take this opportunity to express my humble thanks to Shri. Chandrahar Patil, Founder of Shikshan Prasarak Mandal Khatav, for his kindly treatment and guidance throughout my service span in Shahajiraje Mahavidyalaya Khatav.

I must also express honest thanks from bottom of heart to Shri. Sanjay Patil, Principal, Shahajiraje Mahavidyalaya Khatav, for inclining me to undertake this research work and providing me all the necessary facilities.
I must proclaim my gratitude to Dr.Y.V. Jugale for her affectionate and time to time asking after nature about my research activity.
