ACKNOWLEDGEMENT

I express my deep sense of reverence and gratitude to my Supervisor Dr. W.K. Kawishwar, Professor, Department of Biochemistry, Pt. J.N.M. Medical College, Raipur for his keen interest, generous guidance and stimulating criticism which have sustained my efforts at all the stages of so arduous an undertaking and helped me to bring it, I hope, to successful completion. But for his constant vigil over the execution of this undertaking and his unfailing sustenance, it would have been almost impossible for me to accomplish this work.

With deep gratitude, I express my indebtedness to DR. Aruna Palta, Co-Supervisor, Assistant Professor, Govt. D.B. Girl's College, Raipur for her generous inspiration, valuable help, critical criticism during this undertaking.

I acknowledge my deep sense of gratitude to DR. K.Visweswara Rao, Deputy Director, Department of Statistics, National Institute of Nutrition, Hyderabad, for his constant guidance and advices in statistical
planning, evaluation and analysis of this undertaking and solving all my problems with understanding and kindness.

I am grateful to Shri Prasad Rao, Statistical Officer, National Institute of Nutrition, Hyderabad for his valuable help.

I want to express my thank to DR. Bhagya Laxmi Rao, Medical Officer, Municipal Corporation, Raipur, for giving all the help necessary during the entire work.

All the mothers of infant from Raipur Kamars, Bastar Maria-Gonds, Surguja Oraons, Raipur slums and Urban elites need special thank for participation and extending all co-operation in the entire course of the investigation.

Government officials of Raipur, Bastar and Surguja district need appreciation for the facilities provided for the investigation carried out at the work site.

RAIPUR

NOVEMBER, 14, 1995.
