ACKNOWLEDGEMENT

It is moment of gratification and pride to look back with a sense of contentment at the long traveled path, to be able to evoke some of the fine moments, to be able to thank infinite number of people, some who were with me from the beginning, some who joined me at some stage during the journey, whose kindness, love and blessing has brought this day, I wish to thank each one of them with all my heart.

It is with great pleasure and humble & honour thanks to my eminently, esteemed research guide. Dr. Gunjan B. Dave, Assistant professor, S. V. Institute of Post Graduate Studies & Research, Kadi, Dist. Gandhinagar, Gujarat State for his thoughts provoking discussions, keen interest, inspiration and moral boosting advises. I also be obligated special dept of gratitude to my research guide for his rich expertise’s and constant encouragement throughout the research work for its successful denouncement and helping in preparing and completion of this thesis.

My sincere thanks to Dr. S. Eswara Reddy, Joint Drugs Controller (India) and Dr. A. Ramkishan, Deputy Drugs Controller (India) for their valuable guidance and his timely support throughout my dissertation work.

I am very much thankful to M/s. Mercury Laboratories Ltd., Baroda & M/s. Intas Pharmaceuticals Ltd., Ahmedabad for given that the drugs as reward samples for my project work.

I am grateful to my colleagues Chanakya R. Patel, Vinaykumar Gupta for their constant encouragement, constant inspiration and dynamic cooperation, moral support. Here I would like to convey appreciation to all my juniors and friends for their help & suggestions in translating this work into reality.
