ACKNOWLEDGEMENT

The author is highly indebted to and is extremely grateful to Dr. G.L. Asawa, Professor Department of Civil Engineering I.I.T. Roorkee, and Dr. M.A. Lone, Assistant Professor, Department of Civil Engineering N.I.T. Srinagar, for their invaluable guidance, interest, constant encouragement and involvement during the entire period of this research work without which it would not have been possible for the research work to take the present shape.

The author puts on record the special thanks to all his colleagues of Civil Engineering Department in general and to Mr. F. A. Mir (H.O.D.), Mr. A.Q.Dar and Mr. B.A.Mir in particular for their invaluable help and encouragement during the research work. Thanks are also due to Dr. A.H. Mir (A.P. Electronics and Communication Engg. Dept.) for his constant encouragement. Sincere thanks are due to the staff of the Fluid Mechanics Laboratory of Civil Engg. Department namely Mr. Sirajudin Sheikh, Gh. Mohd Dobi, G.R. Teli, A.R. Sofi, A.R. Raina, A.H. Khan and G.H. Wani for their work and valuable co-operation in fabrication of the experimental set-up and in conduct of the experimental work.

The author is indebted to his family members for patience, understanding and encouragement during the programme of study.

Manzoor A. Ahanger
