ACKNOWLEDGEMENT

By the grace of Almighty God, blessings of teachers, parents, elders, friends and well wishers, I have been able submit this prestigious work. It would not have been a success without the co-operation of innumerable people who have directly and indirectly helped me for the completion of this voluminous work.

At the outset, it has been my pleasure to be working here in F.R.I. as a research scholar, and was an enriching experience in various ways.

I owe deep gratitude and am highly indebted to my supervisor, Dr. (Mrs.) Shamila Kalia, Scientist E, Forest Extension Division, Forest Research Institute, Dehradun for her guidance and support during the course of my research.

I am thankful to the Director Mr. S.S. Negi, F.R.I., Dehradun for helping me at the time of crisis and providing we all the facilities for completing my work from this prestigious institute.

I am also thankful for the improvisation inputs by our Registrar, Mr. T.C. Nautiyal in order to improve the research facilities and status. The motivating and leading efforts have instilled a zest for improving the quality of work for which I will always be thankful to him.

I would also thank Mr. M. K. Singh, who introduced me into this field of research which has contributed in reforming my personality besides enriching knowledge regarding forestry and our environment.

It has been my privilege to have been in the Forest Entomology Division during the reign of Dr. Mukhtar Ahmad (Retd. H.O.D. Forest E. Division, Scientist-F), who has been a source of guidance & support throughout.

It has been a blessing to have been working in the Entomology Division under the able leadership and guidance of Shri R.S. Bhandari (Scientist- F, Ex- Head, Forest Entomology Division, F.R.I.) whose support, concern, guidance and help has lead to this success in my life. I will always be thankful to him for my unforgettable and enriching experience working with him.
Now, again, as I see, the department evolving and assuming new dimensions under the guidance and leadership of Dr. R.K. Thakur, H.O.D. Forest Entomology Division, F.R.I., Scientist- F, who has also been a source of strength and guidance throughout.

I express my heartfelt thanks to all the Scientists of Forest Entomology Division, Sh. Lalji Prasad, Scientist- E, Dr. Arun Pratap Singh, Scientist- E for their help, support and concern throughout. I however, sincerely thank Dr. Sudhir Singh, Scientist-E and Dr. Neena Chauhan Scientist- D, Dr. K.P. Singh Scientist-B for their cooperation, support and help in various ways during the course of my study.

I am grateful to Sh. Raman Nautiyal, Sh. S.K. Sheel and Chauhan Sir (Statistical Branch ICFRE) whose help in statistical analysis has been instrumental in completion of my work.

I owe deep gratitude and express my thanks to Dr. Dayal, Ex- H.O.D., Chemistry Division, Dr. N.S.K. Harsh, H.O.D., Forest Pathology Division, to have helped me in the completion of the chemistry and pathology part of my research work. I also thank Director, F.S.I., Dehradun, for providing me the necessary documents for the finalisation of my research work.

I am highly indebted to my father Sri. N.B. Singh, mother Smt. Kiran Srivastava, brother Shri. Ranjan Kumar, my sister-in-law Smt. Linda Srivastava and sister Ms. Vandana Srivastava for their constant support, love and affection throughout, without which the work would not have been a success. They have been a constant source of
strength, guidance and help which has provided a lot of support at the crucial and critical stages during the work. I am also thankful to my dear children Drishika Narayan and Hemakshi Narayan, whose incredible love and support has provided me strength to be able to complete this cherished work.

I am also thankful to all my friends and colleagues Babita, Reema, Rajni, Neeru, Naina, Faisal, Rinki, Neelam, Shivani, Rashmi, Aparna, Vandana, Deepika, Shailja and Pooja for their extreme support, love and co-operation.

Gunjan Srivastava
