ACKNOWLEDGEMENT

My primary thanks go to my learned, well tempered and experienced supervisor Dr. R. Rajavel, Assistant professor, Department of Chemistry, Periyar University, Salem, for his valuable suggestions, invigorating encouragement and unlimited Cooperation during the research work. Without his generous help, the timely completion of the work would have not been possible for me.

I am extremely indebted to Prof. V. Raj, Head, Department of Chemistry, Periyar University, Salem, for providing all the necessary research facilities and resources to accomplish my research work.

I take this opportunity to sincerely acknowledge the Periyar University, Salem, throughout the course of research program.

I also wish to thank other teachers Prof. P. Vishwanathamurthi, Prof. D. Gopi, Dr. A. Lalitha and Dr. V. Sujatha, Department of Chemistry, Periyar University, Salem, for their cooperative and kind approach throughout the course of this work.

This thesis is dedicated to Dr. Palani G. Periasamy, M.A., M.A., Ph.D., Chairman PGP Groups and Mrs.Visalakshi Periasamy, Vice Chairman, PGP Groups who are my foster parents, guides and philosophers. Their overly enthusiasm coupled with an integral view on research and an everlasting love and affection has made a deep impression on me. I am indebted to them for the encouragement and the freedom I enjoyed throughout. They have given my career in science, a purpose and a meaning full direction.
No amount of words is enough to express my regards to Mr. M. Ganapathy, IFS, Correspondent and Dr. S. Muthu, M.E., Ph.D., Advisor, PGP Educational Institutions for their help in building the vacuum line for my thesis work.

My special thanks to my colleague Ms. E. Akila and Ms. M. Usharani for their encouragement and support.

I would like to thank the research scholars Ms. C. Srividhya, Mr. R. Ashokan, Mr. G. Anbarasu, Ms.M. Malathy and Mr. A.Venkatesh for their encouragement.

I extend special thanks to the lab attenders and office staff members of department of chemistry, Periyar University, Salem.

My privilege thanks to Department of Physics, Periyar University for IR and UV spectral analysis, and Progen Lab, Salem, for their support in biological studies of the complexes on time.

P. Maheswaran
