Acknowledgement

This thesis would not have been possible without the motivation of a number of hands. I am indebted to many individuals who supported me throughout the period of my research studies. It is a pleasure to thank them all who have helped and inspired me.

I owe my deepest gratitude to my supervising guide Dr. R. Rajavel for showering enthusiasm and immense knowledge. His encouragement, guidance and support from the initial to the final level, enabled me to develop an understanding of the subject.

I wish to express my thanks to Prof. V. Raj, Head, Department of Chemistry, Periyar University, Salem for their help and support during my research studies.

I would like to extend my gratitude to DST INSPIRE Fellowship, New Delhi for the financial support offered.

I greatly acknowledge the timely assistance rendered by faculty members Prof. P. Viswanathamurthi, Prof. D. Gopi, Dr. A. Lalitha, Dr. V. Sujatha of the Department of Chemistry, Periyar University, Salem. Also, I express my sincere thanks to Mr. R. Mohan Raj, Guest Lecturer, Department of Chemistry, Periyar University, Periyar Palkalai Nagar, Salem.

I express my sincere thanks to my Doctoral, Research validation and SRF committee members Dr. K. Pandian, University of Madras and Prof. M. Periasamy, University of Hyderabad.

I Convey my thanks to SAIF-IIT Bombay, STIC Cochin, Department of Physics & Department of Microbiology, Periyar University and other research institutes who helped me in carrying out my research spectral and biological studies.

I am extremely grateful non-teaching Staffs, Department of Chemistry, Periyar University, Periyar Palkalai Nagar, Salem, for their kind co-operation during the period of my project.
I extend my thanks to colleagues and Research Scholars, Department of Chemistry, Periyar University, Salem, for their kind help during the course of my study and immeasurable help to complete this project work.

Sometimes deepest feelings are hardest to convey and I use this special opportunity to express my heartfelt thanks to my dearest parents Mr. S. Markandan and Mrs. M. Sundarambal for their love, affection and encouragement. I am also greatly indebted to my elder brothers Mr. M. Murugasen and Mr. M. Sathiskumar, my most lovable younger sister Ms. M. Gomathi and my sister-in-laws Mrs. M. Sudharani and Mrs. S. Sathya Prabha for all their care, good vibes and positive energy. I am extremely fortunate in having my well wisher Mr. T. Balamurugan in shaping my personality. I appreciate his mental strength, support, request and encouragement he had showered at me throughout my research studies and fulfillment of my dream. Also, I am grateful to my grand parents Mr. V. Sadayan, Mrs. S. Perumaayi, Mr. Elumali and Mrs. E. Krishnamma for their love and care. Furthermore I use this occasion to thank my dearest well wisher Mr. Natarajan (late) and Mrs. N. Krishnaveni for their special concern for me from my childhood.

Finally, I would like to thank everyone who was behind the fulfilment of my thesis. Above all, I stoop before God Almighty for having given me His Strength and blessings to carry this work to termination.

M. USHARANI
