ACKNOWLEDGEMENT

It is with greatest pleasure, I look back to acknowledge several people who had been a source of inspiration, encouragement throughout my project work.

First and foremost, I express my sincere and humble gratitude to GOD ALMIGHTY and with profound sense of gratitude, pleasure and humbleness, I express my hearty gratitude towards the man, who shown me right way, in right direction, at right time and inspired me, strengthened my will, buildup my confidence he is my father Mr. C. Dhanabal and to my respectable mother Mrs. K. Ganthimathi who guided and supported me at every movement of life. I also acknowledge my beloved Sister Mrs. D. Usharani and brother Mr. D. Navanit for their support and inspiration.

I consider myself very fortunate to have Dr. P.M. Ayyasamy M.Sc., Ph.D as a research Supervisor, Assistant Professor, Department of Microbiology, Periyar University, Salem. His dynamic approach boosted my moral, which helped me to a very great extent in the completion of this thesis. His guidance, constant encouragement, enthusiasm, stimulating discussions, kind co-operation and untiring help which made me to improvise myself with interesting experience. I am short of words to thank him for unlimited patience, freedom of thought, faith and affection bestowed upon me throughout my research work. I am very proud to say that he is just like a velvet hand in an iron glove and a dazzling diamond in disguise.

I express my deep sense thanks to Dr. R. Balagurunathan, M.Sc., M.Phil., Ph.D., Professor and Head, Department of Microbiology, Periyar University, Salem for providing all the facilities and constant encouragement for the successful completion of this project work.
