Chapter 1 INTRODUCTION	1
Global Gender Gap	1
Indian Gender Gap	3
Women Work Participation Rate in Tamil Nadu	5
Construction	6
Background for the Malady of Gender Discrimination in India	10
Women Construction Workers	12
Significance of the Research	15
Chapter 2 REVIEW OF LITERATURE	20
Literature on gender discrimination among construction workers and skill acquisition in foreign countries	20
Indian literature on women construction workers	32
Chapter 3 RESEARCH METHODOLOGY	50
Objectives of the Study	50
Hypothesis	51
Coverage	54
Area of Study	54
Period of Study	55
Design of Study	55
Universe	55
Sampling Method	56
Sampling Size	56
Validity and Reliability	57
Sources of Data Collection	57
Statistical Tools Employed	59
Scope	59
Limitations	59
Chapterisation	59

Chapter 4	DATA ANALYSIS & INTERPRETATION	60
Characteristics of Women and Men Construction Workers		60
<i>Personal, Social and Educational Background of Construction Workers</i>		<i>60</i>
<i>Residence and Transportation of Workers</i>		<i>62</i>
<i>Harassment of Married Women Construction Workers at Home</i>		<i>63</i>
<i>Facilities at Work for Women Construction Workers</i>		<i>65</i>
<i>Harassment of Women Construction Workers at Workplace</i>		<i>65</i>
<i>Discrimination in Wages and Work</i>		<i>66</i>
<i>Discrimination in Promotional Opportunities</i>		<i>68</i>
<i>Other characteristics of men and women construction workers</i>		<i>69</i>
<i>Status of Spouse of Men Construction Workers</i>		<i>71</i>
<i>Involvement of Construction Workers in Union Activities</i>		<i>71</i>
<i>Spending of Income by Women and Men Construction Workers</i>		<i>72</i>
Characteristics of Contractors		73
<i>Socio Demographic Characteristics of Contractors</i>		<i>73</i>
<i>Union Details and Hours of Work by Contractors</i>		<i>75</i>
<i>Major Problem of Women Construction Workers by Contractors</i>		<i>75</i>
Tests for Problems Faced by Women Construction Workers		77
<i>Independent Samples T - Test</i>		
<i>for Problems of Women Construction Workers</i>		<i>77</i>
<i>One Way Analysis Of Variance Test</i>		
<i>for Problems of Women Construction Workers</i>		<i>79</i>
Tests for Gender Comparison of Construction Workers		82
<i>Independent Samples T Test for Gender and Age,</i>		
<i>Family Income, Experience, Days of work and Education</i>		<i>82</i>
<i>Chi-Square Analysis for Gender Comparison among</i>		
<i>Construction Workers</i>		<i>83</i>
Awareness of Construction Workers on Gender Discrimination (Inequality)		96
<i>Chi-Square Test for factors affecting opinion of Women Construction</i>		
<i>Workers of Inequality among Construction Workers</i>		<i>96</i>
<i>Binary Logistic Regression for Opinion about Inequality of</i>		
<i>Women Construction Workers among women</i>		<i>100</i>
<i>Factors affecting Opinion of Men Construction Workers</i>		
<i>of Inequality (gender discrimination) among Construction Workers</i>		<i>102</i>
<i>Binary Logistic Regression Analysis for opinion about inequality by men</i>		
<i>construction workers</i>		<i>109</i>
<i>Opinion on Inequality of Women Construction Workers by Contractors</i>		<i>111</i>
Factors affecting Wages of Men and Women Construction Workers		112
<i>One Way Analysis of Variance Test for Wages of Women</i>		
<i>Construction Workers</i>		<i>112</i>
<i>Independent Samples T Test for Wage Discrimination Among</i>		
<i>Construction Workers</i>		<i>112</i>
<i>Multiple Regression Analysis for wages of construction workers</i>		<i>113</i>
<i>Multiple Regression Analysis for wages of men construction workers</i>		<i>115</i>
<i>Multiple Regression Analysis for Wages of Women Construction Workers</i>		<i>117</i>

Barriers that prevent women from becoming masons	120
<i>Reasons for Encouraging Women to do Masonry job</i>	<i>121</i>
Willingness of Women Construction Workers to be Trained as Masons	122
<i>Chi-Square Tests for Willingness of Women Construction Workers to be trained as Masons</i>	<i>122</i>
<i>Binary Logistic Regression Analysis for Willingness of Women Construction Workers to be Trained</i>	<i>136</i>
Willingness of Women Construction Workers to Become Masons	138
<i>Chi-Square Tests for factors influencing Mason Work Tried by Women Construction Workers</i>	<i>138</i>
<i>Binary Logistic Regression for Mason Work Tried</i>	<i>144</i>
<i>Chi-square test for factors influencing Willingness to Become Skilled Mason by Women Construction Workers</i>	<i>146</i>
<i>Binary Logistic Regression for Willingness of Women Construction Workers to become skilled masons</i>	<i>155</i>
Willingness of Men Construction Workers and Contractors to Train Women as Masons	157
<i>Factors influencing Willingness of Contractors to Train Women</i>	<i>157</i>
<i>Chi Square Test for Willingness of Men Construction Workers to Train Women</i>	<i>159</i>
<i>Impact of Experience on Willingness of Men Masons to Train Women Construction Workers as Masons</i>	<i>168</i>
<i>Binary Logistic Regression for Willingness of Men Construction Workers to Train Women Construction Workers as masons</i>	<i>168</i>
Willingness of Men Construction Workers and Contractors to Employ Women as Masons	172
<i>Factors Influencing Opinion of Men Construction Workers That Women Can Become Masons</i>	<i>172</i>
<i>Chi-Square Tests for Factors influencing opinion of Men Construction Workers that Women can become Masons</i>	<i>174</i>
<i>Binary Logistic Regression for on opinion of men Construction workers that women can become skilled masons</i>	<i>185</i>
<i>Factors influencing Acceptance to employ Women Masons by Contractors and men construction workers</i>	<i>186</i>
<i>Chi-Square Tests for Factors Influencing Acceptance to employ Women Masons by Men Construction Workers</i>	<i>188</i>
<i>Binary Logistic Regression for Men construction workers Acceptance of Skilled Women Mason.</i>	<i>198</i>
<i>Binary Logistic Regression Analysis for Men Masons acceptance of women masons</i>	<i>199</i>
Methodology to Empower Women	202
<i>Daily work description of Women Construction Workers</i>	<i>202</i>
<i>Competency of Women to Carry out Masonry Work</i>	<i>203</i>
<i>Analysis of the Empowerment Process of Men Construction Workers</i>	<i>203</i>
<i>Method of Training Women Construction Workers as Masons</i>	<i>205</i>

Chapter 5	FINDINGS	206
Personal, Social and Educational Background of Construction Workers		206
Residence and Transportation of Workers		207
Harassment of Married Women Construction Workers at Home		208
Facilities for Women Construction Workers		208
Harassment of Women Construction Workers at Workplace		208
Discrimination in Wages and Work		209
Discrimination in Promotional Opportunities		211
Major Problem of Women Construction Workers by Contractors		212
Involvement of Women Construction Workers in Union Activities		212
Women spend their Income mostly on Family		212
Sincere Work of Women Construction Workers		213
Socio Demographic Characteristics of Contractors		213
Test Results for Problems of Women Construction Workers		214
<i>Independent Samples T - Test Results for Problems of Women Construction Workers</i>		214
<i>One Way Analysis Of Variance Test Results for Problems of Women Construction Workers</i>		214
Gender Comparison of Women Construction Workers		215
<i>Independent Samples T Test Results for Gender and Wages Education, Family Income, Experience and Days of work</i>		215
<i>Chi-Square Analysis Results for Gender Comparison among Construction Workers</i>		215
Awareness of Construction Workers on Gender Discrimination (Inequality)		217
<i>Binary Logistic Regression for Opinion about Inequality of Women Construction Workers among women</i>		217
<i>Chi-Square Results for factors affecting Opinion of Men Construction Workers of Inequality among Construction Workers</i>		218
<i>Binary Logistic Regression for opinion about inequality by men construction workers</i>		219
<i>Opinion on Inequality of Women Construction Workers by Contractors</i>		219
Factors Affecting Wages of Construction Workers		219
<i>One Way Analysis of Variance Test Results for Wages of Women Construction Workers</i>		219
<i>Independent Samples T Test Results for Wage Discrimination Among Construction Workers</i>		220
<i>Multiple Regression Results for Wages of Construction Workers</i>		220
<i>Multiple Regression Results for Wages of Men Construction Workers</i>		220
<i>Multiple Regression Results for Wages of Women Construction Workers</i>		220
Barriers that prevent women from becoming masons		221
<i>Reasons for Encouraging Women to do Masonry job</i>		222
Willingness of Women Construction Workers to be Trained as Masons		222
<i>Chi-Square Test Results for Willingness of Women Construction Workers to be Trained as Masons</i>		222

<i>Binary Logistic Regression Results for Willingness of Women Construction Workers to be Trained as masons</i>	223
Willingness of Women Construction Workers to Become Masons	224
<i>Chi-Square test Results for factors influencing Mason Work Tried by Women Construction Workers</i>	224
<i>Binary Logistic Regression Results for Mason Work Tried</i>	224
<i>Chi-square test Results for factors influencing Willingness to Become Skilled Mason by Women Construction Workers</i>	225
<i>Binary Logistic Regression for Willingness of Women Construction Workers to become skilled masons</i>	226
Willingness of Men Construction Workers and Contractors to Train Women as Masons	226
<i>Contractors opinion about Women workers</i>	226
<i>Chi Square Test Results for Willingness of Men Construction Workers to Train Women</i>	227
<i>Impact of Experience on Willingness of Men Masons to Train Women Construction Workers as Masons</i>	227
<i>Binary Logistic Regression for Willingness of Men Construction Workers to Train Women Construction Workers as masons</i>	228
Willingness of Men Construction Workers and Contractors to Employ Women as Masons	228
<i>Factors Influencing Opinion of Men Construction Workers that Women can work as Masons</i>	228
<i>Binary Logistic Regression Analysis for on opinion of men Construction workers that women can become skilled masons</i>	229
<i>Factors influencing employability of Women Mason by Men Construction Workers and Contractors</i>	230
<i>Binary Logistic Regression Analysis for Men construction workers Acceptance of Skilled Women Mason</i>	230
<i>Binary Logistic Regression Analysis for Men Masons acceptance of women masons</i>	231
Methodology to Empower Women	231
<i>Competency of Women to Carry out Masonry Work</i>	231
<i>Capability of Women to Carry out Masonry Work</i>	232
<i>Methodology of Empowerment of Men to become Masons</i>	232
<i>Time Taken for Training Men Workers to become Masons</i>	233
<i>Method of Training Women Construction Workers as Masons</i>	234
<i>Role of Trade Unions in Implementing the Informal Training to Women Construction Workers</i>	234
<i>Motivating Men Construction Workers to Train their Wives and Women Relatives</i>	235
Chapter 6 SUGGESTIONS AND CONCLUSION	237
Suggestions	237
<i>Problems Faced by Women Construction Workers</i>	237
<i>Exploitation of Women Construction Workers</i>	238

<i>Awareness of Construction Workers on Gender Discrimination</i>	240
<i>Gender Discrimination in Wages of Construction Workers</i>	241
<i>Barriers for Women Masons</i>	241
<i>Willingness of Women Construction Workers to be Trained as Masons</i>	242
<i>Willingness of Women Construction Workers to Become Masons</i>	243
<i>Willingness of Men Construction Workers and Contractors to Train and Employ Women as Masons</i>	244
<i>Methodologies Identified to Empower Women Construction Workers in Tamil Nadu</i>	244
<i>Formal Training of Women Construction Workers</i>	245
<i>Informal Training of Women Construction Workers</i>	246
Conclusion	248
<i>References</i>	250
