ACKNOWLEDGEMENT

Though words are often inadequate to express the feelings of heart, one must acknowledge the genuine help and support received from others during the fulfilment of a particular task; I would, therefore, like to convey my thanks to all those who contributed directly or indirectly to the completion of my research work.

First of all, I am extremely grateful to Dr. Suresh Chander Mailk, Reader, Department of Statistics, Maharshi Dayanand University, Rohtak under whose supervision this work has been completed. I owe to him a lot for his keen interest, constant encouragement, valuable guidance and concrete suggestions during the entire course of investigation. Without this illuminating guidance it would have been impossible for me to carry out this work.

I am also thankful to Dr. Ashok Kumar, Reader and Head, Department of Statistics, Maharshi Dayanand University, Rohtak and other teachers of the Department for their useful advice which I received during the present day. I am also thankful to Dr. Anita Garg, Sr. System Analyst, Computer Centre, Maharshi Dayanand University, Rohtak who helped me in analysis of data.

I remember with thanks the co-operation, inspiration and kindness shown to me by all my colleagues, friends particularly Mr. Ajit Grewal and Mr. Randeep Dangi, Research Scholars, Department of Statistics, Maharshi Dayanand University, Rohtak and well wishers during my research work.

I acknowledge my indebtedness to my parents for their blessings and efforts to make my life happy and prosperous.

Let me put on records the most affectionate support and understanding from my husband, Sh. Rajbir Gulia who had sustained me
throughout with his most cherished help and co-operation. Not to be forgotten my dear daughter Gudia and son Chottu who had to sacrifice a large number of affectionate moments due to my involvement in this work.

Finally, I thank non-teaching staff of the Department of Statistics and Mr. Jai Parkash, Department of Mathematics, Maharshi Dayanand University, Rohtak who have helped me in one way or the other in the pursuit of my research.

Date: Rohtak

Place: Rohtak
