ACKNOWLEDGEMENTS

The author wishes to express his sincere gratitude to Dr. M. Wajid Khan, Principal Investigator of the I.C.A.R., C.S.I.R. and U.G.C. Research Projects and Reader, Department of Botany, Aligarh Muslim University, Aligarh, his supervisor for suggesting the problem, active support, astute guidance, encouragement and keen interest in planning his studies for Ph.D. and preparation of the manuscript of the thesis.

A grateful appreciation is extended to Prof. Khalid Mahmood, Chairman, Department of Botany, Aligarh Muslim University, Aligarh, for providing the laboratory and library facilities.

The author is especially grateful to the Indian Council of Agricultural Research (I.C.A.R.), New Delhi for financial assistance through Senior Research Fellowship (SRF) sanctioned in the I.C.A.R. Project (No. 1-21/84 PP) on root-knot nematodes under the supervision of Dr. M. Wajid Khan.

Appreciation are also gratefully extended to Prof. J.N. Sasser, Chief Investigator of the International Meloidogyne Project (IMP) and Crop Nematode Research and Control Project (CNRCP), Department of Plant Pathology, North Carolina State University, Raleigh, U.S.A. for supply of IMP publications and other literature and seeds of the North Carolina host differentials without which the study would have not been possible.
The help and cooperation offered by Dr. S. Saad Ashraf, Research Associate in the I.C.A.R. Project during the field survey, review of literature and preparation of the thesis are gratefully appreciated. Similar appreciation are extended to other lab colleagues and friends for their cooperation and understanding during the course of investigations and preparation of the manuscript.

The assistance and cooperation extended by the teachers and the Head, Department of Botany, Shia Degree College, Lucknow are gratefully acknowledged.

The author would like to express his indebtedness to his parents and other family members for their encouragement, support and care throughout his educational growth and research work for Ph.D. degree.

Above all the author wishes to express sincerely in great esteem, his gratitude, thanks, appreciation and indebtedness to the 'ALMIGHTY GOD' for providing and guiding all the channels to work in cohesion and coordination to make this study possible.
