ACKNOWLEDGEMENTS

I would like to express my deepest thanks to Dr. Mohammad Afzal, Senior Lecturer, Department of Zoology, A.M.U., for the supervision of the work and also extending comments, and enthusiastic cooperation during the tenure of my work.

Words are also worth-mentioning to Prof. A.K. Jafri, Chairman, Department of Zoology, A.M.U., Aligarh for helping in providing the necessary facilities for the work carried out in the Department. I will be failing in my duties if I do not put on record the infallible goodwill, gesture and help rendered to me by Prof. M.M. Agarwal, former chairman, Department of Zoology, A.M.U., Aligarh.

I am also thankful to Dr. Waseem A. Faridi, Dr. Absarul Hasnain and Dr. (Ms) Anjum Ara, our teachers in the section of Genetics, who were the source of inspiration to me.

I express my sincere thanks to the lab colleagues and friends especially to Dr. Badaruddoza, M/s Erfanullah, Shahid Bin Zeya, Fazul Rahman, Sarajuddin, Niamat Ali, Sarfarzul Islam kazmi and R. Pandey for their help, cooperation, advice, enthusiastic support, constant helpfulness during the writing of my thesis.

My sincere thanks to Dr. M.Y.K. Ansari, Lecturer, Department of Botany, Dr. Pasha and Mr. Afaq A. Khan, who helped in getting photomicrograph of the slides of human chromosomes.

Financial assistance received from Indian Council of Medical Research (as SRF in the scheme 5/7/18/87 HRD, 1992) and departmental assistance from Zoology (1993) is gratefully acknowledged.

Lastly, I owe my angel mother Mrs. Maryum Khatoon, for her continuous help and inspirations rendered to me.

MD. ASIM AZFER
