Acknowledgements

I bow in reverence to GOD the Almighty, who blessed me with an innumerable favour of academic work.

Like all creative works completing a thesis in any discipline is really a hard work to accomplish. I have no words to express my heartfelt gratitude to my esteemed supervisor Prof. Irfan Ahmad, Department of Zoology, Aligarh Muslim University, Aligarh for his excellent guidance, valuable and timely suggestions, stimulating discussions, constructive criticism and academic alertness, sense of perfection and precision which enabled me to complete this work. His devotion to work was itself enough for anyone to get involved in the work. Inspite of his tight departmental commitments he kept his door open wide for me. His affectionate instinct and constant encouragement were always a boon to me. Any error if still remains is entirely my own.

I am extremely obliged to Prof. Mohd. Hayat, Chairman, Department of Zoology, Aligarh Muslim University, Aligarh for providing necessary facilities for the work.

I have always been inspired by my respected teachers, Prof. M. Shamim Fairojputri (Former vice chancellor, M.A.N.U. University, Hyderabad), Prof. Wasim Ahmad, Drs. Qudsiya Tahseen and Mahalaqa Choudhary. I duly acknowledge their cooperation, encouragement and moral support.

I wish to acknowledge my seniors and lab colleagues, Dr. Azra Shaheen, Dr. Noorus Saba, Dr. Anjum Nasreen, Mahamood, Ather, Mushtaq, Baniyamuddin, Rahmat, Razia, Tabassum, Vijay and Shikha for their constant encouragement during the entire course of the present work.

Special thanks are also due to my lab colleague Gaurav Kumar Singh for his unconditional and constant help during compilation of this work.

I also place on record the assistance rendered by Drs. M. Manjur Shah and Nazura Usmani during this grueling task.

I am also thankful to my friends, Syeed, Jassy, Majid, Zulfiqar, Rais and Jamal for the help they extended whenever required.

Last but not the least, I would like to express by profound sense of obligation to my parents, brothers, Ali Akhtar Shah, Akbar Ali, Haider, Syeed Mushtaq, Mohib Khan and sisters, For their perennial encouragement, understanding and patience during the preparation of thesis.

The financial assistance provided by the Ministry of Environment & Forest, New Delhi, is gratefully acknowledged.

Ali Asghar Shah
