ACKNOWLEDGEMENTS

The pursuit of scientific knowledge is a long, arduous and sometimes an obscure path, but the presence of inspiration and close collaboration of my supervisor, Dr. H.S. Singh, Lecturer, Department of Zoology, Ch. C.S. University, Meerut, made it highly illuminating and successful. It is very difficult to express my deepest sense of gratitude in few words to my most venerable supervisor, for his kind supervision, benevolent guidance, valuable suggestions and paternal encouragement. I am deeply indebted to him from the core of my heart. I am extremely thankful to Dr. S.S. Lal, Prof. and Head, Department of Zoology, who has provided laboratory facilities and he always encouraged me to pursue this work.

I am highly greatful to my teacher Dr. S.V.S. Rana, Associate professor, Department of Zoology, for his constant inspiration and encouragements.

During this work, my seniors Dr. Kapil Kumar and Dr. Yogesh Tyagi added their moral support to me. I thankfully appreciate the help extended by my lab-mates Mrs. Neelam Panwar and Miss Anshu Agarwal.

Sincere thanks are due to my most respected parents whose blessings and untiring help have always animated me to rise against problems. Close co-operation of my brother Mr. Vivek Kumar Agarwal,
my bhabhi Mrs. Rashmi and my sister Rachana Agarwal is greatly acknowledged.

At last, I thankfully appreciate the help extended by my father-in-law, mother-in-law and my husband Mr. Neeraj Gupta.
