ACKNOWLEDGEMENT

With a deep sense of gratitude I avail this opportunity to acknowledge my indebtedness to Prof. Sanaullah Khan, chairman, department of statistics, Aligarh Muslim University, Aligarh, India, for his sympathy, consideration, kind treatment and most invaluable guidance, and also for giving me research facilities to fulfill this work. My thanks are due to Mr. Akhtar H Siddiqui, lecturer, department of statistics, Aligarh Muslim university, for extending his co-operation in preparation of computer programmes of various numerical examples illustrated in this thesis. I am lost for the words to express my deep sense of appreciation to Prof. Tarig Aziz, Chairman, Department of Applied Maths. and Mr. Nasim A Khan Lecturer, department of Chem. Engg., Faculty of Engg., Aligarh Muslim University, Aligarh for their cooperation and providing computer facilities.

While placing on record my gratitude to the National Council for Research, Govt. of Sudan for granting me study leave, I also take this opportunity to thank University Grants Commission, Govt. of India, for providing me financial assistance.

I have to express my sense of gratitude to all my teachers, Research scholars of the department of statistics and friends for their best wishes with me. My word of thanks are also due to Mr. Nafees Alvi for neat and speedy typing of manuscript.
