ACKNOWLEDGEMENTS

Pursuing Ph.D. degree is a both painful and enjoyable experience. It’s just like climbing a high peak, step by step, accompanied with bitterness, hardships, frustration and encouragement. When I found myself at the top enjoying the beautiful scenery, I realized that it was in fact, team work that got me there. Though it will not be enough to express my gratitude in words to all those people who helped me, I would still like to give my many, many thanks to all these people.

First and foremost, I would like to express my heartfelt gratitude to my mentor Dr. Dhiraj Sud, Professor and Head, Department of Chemistry, SLIET, Longowal. Her support and direction from the very early stage of present research work encouraged me to pursue quality research work. She brought me closer to the reality through her Socratic questioning, I had initially perceived, eventually enabling me grasp its rich complexity. Her truly academic intuition provided me persistent encouragement and support in various ways and she always inspired me and nourished my growth as a researcher. I am indebted to her more than she knows.

I am deeply grateful to my co-supervisor, Dr. Damanjit Singh, Associate Professor, Department of Chemistry, SLIET, Longowal, for his constructive comments and support throughout this work. I wish to express my warm and sincere thanks to Dr. B K Kanungo and Dr. Harish Chopra, Professor, SLIET, Longowal for his valuable suggestions and encouragements.

I am highly grateful to Dr P.B. Berman (Professor, Department of Physics, Jaypee University, Solan), Dr. Ashok Kumar Malik (Punjabi University, Patiala), Mr. Ramesh (PU, Chandigarh), Mr. Dinesh, Mr. Vikas Grover, Dr. Munish (NIPER, Mohali) and Dr. M.P. Kaur for their whole hearted and ever available helps.

I am grateful to Paramjeet Kaur for her sisterly care during the research and compilation of work. From my first day in SLIET, Longowal, Paramjeet Kaur and Bhupinder Kaur have shared so many special moments contributing to a common story of colourful pages now lead me towards a new chapter. My sincere thank to Bhupinder Kaur, for her detailed review, constructive criticism and excellent advice during the preparation of this thesis. I am indebted to my friends for providing a stimulating and fun environment to learn and grow. Special thanks go to Bharti,
Deepika, Namita and Dr. Rati Kanta Bera for sharing valuable times and constructive thoughts. The efforts made by them in promoting a stimulating, welcoming academic and social environment will stand as an example to those that succeed them. I am especially grateful to the research group at SLIET comprising Garima, Navneet, Amit Dhir, Dr. Umesh Garg and Mr Gulhsan Jawa for their support in research work. I am very thankful to my fellows Baltej Singh, Rifat, Shivani, Deepika, Richa, Poonam and Pooja for their cooperation and help.

I would like to thank my colleagues at the Punjabi University Guru Kashi Campus, Talwandi Sabo, for their constant encouragement. The co-operative attitude of Randhir Singh and Gurdevinder Singh, laboratory staff of the chemistry department at YCoE Talwandi Sabo is worth appreciating. I am thankful to all faculty and staff of the Department of Chemistry, SLIET, Longowal who made my study pleasant, and gave me everlasting, wonderful memories.

I am indebted to Mr. Major Singh (Associate Professor, SLIET), Rupinderjeet Cheema, Raj Singh (SLIET), Bhupinder Kaur (Research Fellow, Thapar University) for their support and help.

I feel a deep sense of gratefulness for my parents who formed my vision and taught me the good things that really matter in my life. My special thanks to my husband, Dr. Anand Bansal, for being incredibly understanding, supportive, patient, and for putting up with late hours and my bad temper. Huge thanks to him for keeping up my spirit with encouragement. Thanks for his compiling and editing assistance. Thanks to my daughters, Mallika and Devika who have probably missed many precious moments of motherly love and care, and for giving me happiness and joy during work tensions.

I am deeply thankful to my In-laws and special gratitude is to my mother-in-law who looked after all domestic affairs in my absence. I am extremely indebted to my relatives for their moral support. Special thanks to my brother, sisters and their families for their loving support.

I would like to thank the University Grants Commission, for the award of the Teacher Fellowship under Faculty Development Program, which has supported me to accomplish research work. The support of my employer, Punjabi University Patiala is gratefully acknowledged.
Finally, I would like to thank every person who was imperative to the successful realization of my research work whose names could not be covered here due to paucity of space.

All these thanks are only a small fraction of what is due to Almighty God, for giving me health, strength and wisdom to start and accomplish this assignment.

(Priti Bansal)
