ACKNOWLEDGEMENTS

At the outset I must put on record my humble feelings for Prof. M. Zafar, my respected supervisor. His vivacious personality deeply inspired me. His erudite guidance and assiduous supervision were the driving forces in the formulation of this research thesis.

I am greatly beholden to Prof. B.N. Khanna, Chairman, Department of Physics, for providing me the necessary facilities required for this work. I am equally grateful to Prof. M. Shafi, former Chairman of the department for his personal interest and elderly advice.

My sincere thanks are due to Dr. M.Z. Ahsan, Dr. Shafiq Ahmad, Dr. R. Hasan, Dr. Tufail Ahmad, Dr. M.S. Ahmad, Mr. K.A. Siddiqui and Mr. Taiyyab Hussain for their constructive comments and exquisite support during the course of this work. Computer skill of Mr. Salman Khalid, Lecturer, Department of Computer Science, greatly helped me in the computational work. I am thankful for his cooperation.

Thanks are also due to Mr. S.A. Jafri, Mr. M. Mahir, Mr. M. Rafiq and Khalid Imdad for their excellent scanning work.

Special thanks are due to Mr. M. Shoeb Siddiqui for drawing some of the diagrams and Mr. Mohd. Rashid for excellent typing of this manuscript.

For critical and careful reading of the proof of the manuscript, I am immensely indebted to Mr. M.S. Azam, Mr. Zafar Iqbal, Mr. Shafiqullah Siddiqui, Mr. S. Salman Ali and Dr. M. Shamim Khan. The lapses and errors pointed out by these gentlemen have greatly improved the final version of the manuscript.

Special mention must be made of my parents, wife, brothers, sisters and relatives who showered their blessings, affections and provided me moral support at every stage.

The financial assistance from Aligarh Muslim University, Aligarh, India in the form of junior and senior research fellowships during the course of study is thankfully acknowledged.

Dated: 10 July, 1993
