# CONTENTS

Chapter 1  INTRODUCTION  1-11

References to Chapter 1  10

Chapter 2  EIKONAL DESCRIPTION OF HIGH ENERGY NUCLEAR SCATTERING  12-38

2.1 Introduction  12
2.2 Potential Scattering in Eikonal Approximation  14
2.3 Glauber Model for Nucleon-Nucleus Scattering  21
2.4 Multiple Scattering Expansion  28
2.5 Inclusion of Coulomb Scattering  31
2.6 Nucleus-Nucleus Scattering  32
2.6.1 Coulomb Scattering for Nucleus-Nucleus Scattering  35

References to Chapter 2  37

Chapter 3  APPROXIMATE METHODS FOR EVALUATING THE S- MATRIX  39-64

3.1 The Approach of Czyz and Maximon  39
3.2 The Phase Expansion Approach  41
3.3 Alkhazov's Approach  42
