ACKNOWLEDGEMENT

Thanks to Allah, first for His blessings on us to make this work possible.

I would like to thanks my supervisor Dr. Tauheed Ahmad from the bottom of my heart for his precious contribution in my work. He was always available where ever I needed him. Indeed his sense of understanding and helpfulness shall be always appreciated by me.

I would like to express my sincere and profound gratitude to Prof. M.S.Z. Chaghtai, Ex-Chairman and Ex-Dean, Faculty of Science for admitting me in his group for this work. He has always been very kind to me and I benefitted a lot from his valuable discussion and suggestions. I must thank Prof. S. K. Singh, the Chairman, Department of Physics for providing me all research facilities at Department level, specially for providing our group a modern Pentium - III Computer which was quite useful in performing Relativistic Hartree - Fock calculations.

After all, nothing would have been possible without laboratory’s assistance of Prof. Y.N. Joshi, Physics Department, St. Francis Xavier University, Antigonish (Canada). The spectrograms for the present work, were recorded by Dr. Tauheed Ahmad in Dr. Joshi’s Lab. I myself, and on behalf of Dr. Tauheed Ahmad acknowledge with gratitudes the Antigonish’s hospitality. I also enjoyed very much the fruitful discussions with Prof. Y.N. Joshi during his visit to our lab at Aligarh in December 1999.

Prof. K. Rahimullah has been a continuous source of inspiration. He has helped me in so many ways. I especially thank him for his kindness, co-operation and lots of useful suggestions. I would also like
to thank Dr. Shabbir Ahmad for his co-operation and help.

My sincere thank to Prof. Baa. Onkood the former Vice Chancellor of the University of Aden for providing me this opportunity by granting me leave.

I heartily acknowledge the Yemeni students Mr. Al-Sallal Hussain, Khalid Shadly, Jamil Hassan, Marwan Abdul Wahab and Mohammad Salim Al-Dabi for their help.

I am also thankful to all my friends and colleagues, Mrs. Mahjabeen, Mr. Aijaz Ahmad Wani, Miss Anjum Naz and Tazeen for their help.

The financial support of this work by the Government of Yemen Republic and the University of Aden, is gratefully acknowledged.

I will fail in my duty if I do not thank to my children Waddah Ahmad, Weam Ahmad, and Wahj Ahmad for their continuous encouragement and moral support, particularly my daughter Weam. Thanks are also due to Rahat Ali for his careful typing and composing the matter nicely.

(ZAFARAN ABDUL FATTAH)
