ACKNOWLEDGEMENTS

It is with great pleasure that I express my deep sense of gratitude to my supervisor Prof. Mohammad Shafi who introduced me to the subject and has been a constant source of guidance during the course of the present investigation. I wish to express my high indebtedness to Dr. Muhammad Irfan for his continued help, inspiration and keen interest taken through out the course of this work. I am also thankful to Prof. M. M. Khan, Head of the department for extending to me the necessary facilities of High Energy Physics Laboratory.

I am deeply indebted to my teachers Prof. M. W. S. Amani, Dr. Israr Ahmad, Dr. M. A. Ahsan and Dr. I. J. Kh. Ahmad Khan who have been a constant source of inspiration. I am also highly indebted to Dr. Mohammad Zafar for many stimulating discussions on the subject, to my uncle Mr. Abdul Aziz and to my brother Dr. A. A. Ahmad who have been a constant source of encouragement and help. I am grateful to all the members of H.E. Physics Lab, and in particular to Messers Tariq Aziz, M. N. Khan, Shafiq Ahmad and Usman Ali for many fruitful discussions and pleasant collaboration. I wish to record my thankfulness to my friend Mr. I. A. Soh, Akhtar Ali for assisting me at various stages of this work. My thanks are also due to Mr. M. A. Hussain Siddiqui for the efficient typing of this thesis.

The financial assistance from the University Grants Commission is also acknowledged with thanks.
