Acknowledgements

It gives a great pleasure to express my deep sense of gratitude to Dr. M. Zafar who has been a constant source of guidance, encouragement and help. It is an opportunity to express my sincere thanks to Prof. M. Shafi for his kind interest, encouragement and suggestions at various stages of the present work. I am thankful to Prof. M. Z.R. Khan, Head, Deptt. of Physics for extending me all sorts of facilities of the department. I am very much indebted to Dr. Israr Ahmad for his kind interest and encouragement throughout the course of this work. My sincere thanks are due to Dr. M. Irfan for many stimulating discussions I had with him.

I am grateful to Prof. P. K. Malhotra and Dr. K. V. L. Sarma (TIFR, Bombay) and Prof. I. Otterlund (Lund University, Sweden) for many fruitful discussions and encouragements.

My thanks are due to Messrs. Afzal Ahmad, Shafiq Ahmad and A. R. Khan for their active cooperation during the collection of the data and for many useful discussions I had with them. I express my deep appreciation to Mr. Akhtar Alvi for helping me at various stages of this work. I am thankful to Mr. Usman Ali and other members of H. E. Physics Lab. for various helps. Mr. Mukhtar H. Siddiqi deserves my thanks for typing this thesis.

Finally, the financial assistance from the University Grants Commission, Govt. of India is also acknowledged with thanks.
