ACKNOWLEDGEMENTS

I wish to express my sincere gratitude to Dr. J. Ahmad for introducing the subject and supervision of the present work. Also it is a great pleasure to acknowledge the encouragement and keen criticism of the work which I received from Prof. M. Zillur Rahman Khan.

I must thank Mr. Q. M. Usmani and other members of the theory group for many helpful discussions.

I take this opportunity to express my thanks to the staff of the A.M.U., Computer Centre for their unfailing help and courtesy.

My appreciations are also due to Mr. Wasim A. Khan for his excellent typing of the manuscript.

Finally I must acknowledge the financial assistance given to me by the C.S.I.R. during part of this work.
