ACKNOWLEDGEMENT

In the praise of Almighty Allah, the most Benificent and Merciful who showed the path of righteousness and blessed me to get the strength of doing this work inspite of the teaching, development and research loads of the department.

I wish to thank Dr. Noor Afzal, Professor and Chairman and Dr.-Ing S.H. Mohsin, Professor and Ex-Chairman, Department of Mechanical Engineering, Aligarh Muslim University for extending their co-operation and providing facilities for doing this work.

I am indebted to my senior colleagues at AMU – particularly to Professor S.R. Khan, Department of Mechanical Engineering, Professor M. Salman Beg, Department of Electrical Engineering and Professor Tariq Aziz, Department of Applied Mathematics for providing valuable suggestions, encouragements, criticism and help during the course of this work.

Special thanks are due to Mr. Naiem Akhtar and Mr. Munawwar Shees, who had been my students, for their help and co-operation during the compilation of the thesis. Thanks to Mr. Mohd. Rashid, Badre Alam and Masood Alam for their patience in typing the work and Mr. Mohd. Naim for tracing the figures.

Lastly, I would like to thank my wife for the tolerance she had in bearing the hardships, and mention the negligence that I had towards my son Khubaib and my younger brothers, Badre Alam, Mehboob Alam and Mehfooz Alam. Finally, I would like to thank my parents who showed me their love and affection.

Dated: 24.5.1991

( Mohammad Altamush Siddiqui )
