</table>
Labio-Dorsal Phonological Units

10. Units Formed at Two Points of Articulation with the Same Articulator

11. Phonetic Variation at Two Points of Articulation with the same Articulator

12. Vowels and Non-Apical Portions of the Tongue.

Section B: The Hierarchy of Adroitness of the Articulators: The Makeup and Distribution of Less Clearly Audibles

Section B₁: Paradigmatic Makeup and the Number of Phonological Units in Terms of the Hierarchy of Adroitness of the Articulators

Section B₂: Syntagmatic Distribution of the Consonantal Units in Terms of the Hierarchy of Adroitness of Articulators

Section B₂ (a): Consonantal Units in Terms of the Hierarchy of Adroitness of Articulators

Section B₂ (b): Syntagmatic Distribution of the Stops in Terms of the Hierarchy of Adroitness of Articulators: Aperture 0

Section B₂ (c): Syntagmatic Distribution of the Fricatives in Terms of the
Section B₂ (d): Syntagmatic Distribution of the Nasal Consonants in Terms of the Hierarchy of Adroitness of Articulators: Apertures 0 and 3

Section B₂ (e): Syntagmatic Distribution of the Liquids in Terms of the Hierarchy of Adroitness of Articulators: Aperture 3

Section C: Summary and Conclusions

Chapter II

Impact of Human Factor in the Phonology of Modern Standard Hindi

Section A: Preference for Fewer Articulators over More Articulators

Section A₁: Glottis as an Additional Articulator: Voiced versus Voiceless Consonants

Section A₁ (a): Voiceless versus Voiced Consonants in the Phonological Paradigm

Section A₁ (b): Distribution of Voiceless versus Voiced Consonants

Section A₁ (bi): Voiceless versus Voiced Consonants: Stops and Fricatives

Section A₁ (bii): Voiceless versus Voiced Stops

Section A (biii): Voiceless versus Voiced Fricatives
Section A2: Glottis as an Additional Articulator: Unaspirated versus Aspirated Stops 75

Section A3: Velum as an Additional Articulator: Oral versus Nasal Vowels 79

Section B: Proximate Point of Articulation versus Remote Point of Articulation 83

Section B1: Proximate versus Remote Point of Articulation and Phonological Grid of Modern Standard Hindi 84

Section B2: Proximate versus Remote Point of Articulation and the Occurrence of Phonological Units 86

Section C: Assimilative Trait of Neighboring Phonological Units 88

Section C1: Assimilative Traits and the Occurrences of the Phonological units 89

Section D: Aperture Change and Combinations of Phonological Units 92

Section D1: Large Aperture Change versus Small Aperture Change: CVC versus CVCC and CCVC words 92

Section E: Human Behavior Justification of the Phonological Grid of Modern Standard Hindi 94

1. Scarcity of the Phonological Units at Aperture 96
2. Absence of Voiced and Aspirated Stops Relative to Post-Dorsal q.
3. Two Axes for Apex in Opposition to One Each for Other Articulator

Section F: Summary and Conclusions 98

CHAPTER – III

ROLE OF COMMUNICATION IN THE PHONOLOGY OF MODERN STANDARD HINDI

Section A: Impact of Communication on the Paradigm of Phonological Units 103

Section A1: The Phonemic Inventory of Modern Standard Hindi 106

Section A2: Phonemic Contrast 107

Section A2 (a): Consonantal Contrast 108

Section A2 (b): Vocalic Contrast 116

Section B: Impact of Communication in Combinatory Phonology 122

Section B1: Pairs of Words with the Same Phonological Units in Reserve Order 123

Section B2: Communication and the CVC, the CVCC, and CCVC Words 133

Section B3: Communicative Load: Initial versus Final Position in the Word 134

Section B3 (a): Communicative Load and the Hierarchy of Adroitness of 135
Section B₃ (ai): Impact of Communication on the Relative Preference of the Consonantal Units in Terms of Articulators in the CVC Words

Section B₃ (aii): Impact of Communication on the Relative Preference of the Stops in Terms of Articulators in the CVC Words

Section B₃ (aiii): Impact of Communication on the Relative Preference of the Fricatives in Terms of Articulators in the CVC words

Section B₃ (aiiv): Impact of Communication on the Relative Preference of the Nasals in Terms of Articulators in the CVC Words

Section B₃ (av): Impact of Communication on the Relative Preference of the Liquids in Terms of Articulators in the CVC Words

Section B₃ (b): Impact of Communicative Load on the Initial and Final Positions of the Words in Terms of Number of Articulators

Section B₃ (bi): Unaspirated and Aspirated Stops in the CVC Words

Section B₃ (bii): Voiceless and Voiced Consonants in the CVC Words in Initial and Final Positions

Section B₃ (biii): Voiceless and Voiced Stops in the CVC Words
CHAPTER – IV
ACOUSTIC BASE OF THE PHONOLOGY OF MODERN STANDARD HINDI

Section A: Acoustic Base of the Phonological Grid: Clearly Audible Versus Less Clearly Audible Units

Section B: Formation of Resonant Cavities in the Production of Vowels

Section C: Acoustic Explanation of Lip-Rounding of Back-Dorsal Vowels

Section D: Summary and Conclusions

CHAPTER – V
ROLE OF VISION IN THE PHONOLOGY OF MODERN STANDARD HINDI

Section A: Labial versus Non-Labial Consonants in the Word Initial and Final Positions

Section A₁: CVC Stops in the Initial and Final Positions
Positions: Labial versus Non-Labial

Section A₂: Labial versus Non-Labial Fricatives in the Word Initial and Final Positions 195

Section A₃: Nasals in the Initial and Final Positions: Labial versus Non-Labial 196

Section B: Summary and Conclusions 198

CHAPTER – VI SUMMARY AND CONCLUSIONS 199-206

APPENDICES

Appendix A: Bibliography 207-214

Appendix B: Glossary of Monosyllabic Words in Modern Standard Hindi 215-444
