LIST OF DIAGRAMS & TABLES

Diagram 0-1: Scale of Adroitness of Lingual Articulators.

Diagram I-1: The Phonological Grid of the Deccani Urdu of Hyderabad.

Diagram I-2: Configurations of the Vocal Folds in the Production of V, A, and the voiced h.

Diagram I-3: The Vocalic System of Deccani Urdu.

Diagram III-1: The Phonemic Inventory of the Deccani Urdu of Hyderabad.

Diagram V-1: Scale of Preference for the Four Types of Stops.

Table I-1: Hierarchy of the Adroitness of Articulators and the Make-up of the Consonantal Units.

Table I-2: Frequency of the Consonantal Units in the Monosyllabic Words in Terms of Articulators.

Table I-3: Frequency of the Stops in the Monosyllabic Words in Terms of Articulators.

Table I-4: Frequency of the Nasals in the Monosyllabic Words in Terms of Articulators.

Table I-5: Frequency of the Liquids in the Monosyllabic Words in Terms of Articulators.

Table I-6: Frequency of Oral and Nasal Vocalic Units in the Monosyllabic Words in
Terms of Articulators.

Table I-7: Frequency of Long and Short Vocalic Units in the Mono-syllabic Words in Terms of Articulators.

Table II-1: Traditional Stop Types of Deccani Urdu in Terms of Voicing and Aspiration.

Table II-2: Frequency of the Voiceless and the Voiced among the Unaspirated Stops in the Monosyllabic Words.

Table II-3: Frequency of the Voiceless and the Voiced Unaspirated Stops in the $C_2$ Position of the $CVC_1C_2$ Words.

Table II-4: Paradigmatic Make-up of Deccani Urdu Fricatives.

Table II-5: Frequency of Voiceless and Voiced Fricatives in the Monosyllabic Words.

Table II-6: Frequency of the Voiceless Unaspirated and the Voiceless Aspirated Stops in the Monosyllabic Words.

Table II-7: Frequency of Oral and Nasal Vowels in the Monosyllabic Words.

Table II-8: Frequency of Long Oral and Long Nasal Vowels in the Monosyllabic Words.

Table II-9: Frequency of the Short Oral and Short Nasal Vowels in the Monosyllabic Words.

Table II-10: Frequency of Apico-Dental and Apico-Palatal Consonants in the Monosyllabic Words.

Table II-11: Frequency of Apico-Dental versus Apico-Palatal Stops, Nasals, Fricatives, and Liquids in the Monosyllabic Words.
Table II-12: Potential and Actual Number of Monosyllabic Words in Deccani Urdu.

Table III-1: Frequency of the CVC, the CVCC, and the CCVC Words in Deccani Urdu.

Table III-2: Frequency of the Consonantal Units in the Initial and Final Positions in the CVC Words in Terms of Articulators.

Table III-3: Frequency of the Stops in the Initial and Final Positions in the CVC Words in Terms of Articulators.

Table III-4: Frequency of the Nasals in the Initial and Final Positions in the CVC Words in Terms of Articulators.

Table III-5: Frequency of the Liquids in the Initial and Final Positions in the CVC Words in Terms of Articulators.

Table III-6: Frequency of the Voiceless and the Voiced among the Unaspirated Stops in the Initial and Final Positions in the CVC Words.

Table III-7: Frequency of the Unaspirated and the Aspirated among the Voiceless Stops in the Initial and Final Positions in the CVC Words.

Table III-8: Frequency of Voiceless and Voiced Fricatives in the Initial and Final Positions in the CVC Words.

Table IV-1: Labial versus Non-Labial Stops in the Initial and Final Positions of the Monosyllabic Words.

Table IV-2: Labial versus Non-Labial Stops in
the Initial and Final Positions of the CVC Words.

Table IV-3: Labial versus Non-Labial Stops in the Initial and Final Positions of the Monosyllabic Words.

Table IV-4: Labial versus Non-Labial Nasals in the Initial and Final Positions of the CVC Words.

Table V-1: Formant Frequencies of Long Vowels.

Table V-2: Formant Frequencies of Short Vowels.

Table V-3: Favoring and Disfavoring in the Four-way Distribution of Stops in the Monosyllabic Words.

Table VI-1: Interaction of Orientations in the Distribution of Stops in the Monosyllabic Words.
