ACKNOWLEDGEMENTS

I express my sincere gratitude to my research supervisor Dr. R. Venkatesan, who explored me the art of doing research and for cultivating in me the importance of thinking independently. I appreciate the freedom that he has given to me throughout the course and also for his critical analysis and sharing the elegant way of doing science. I finally understood that “why” is as important as “how” one does an experiment. I enjoyed and have largely benefited from the association with his research group.

I sincerely thank my Doctoral committee members, Prof. G. Govindaraj, Dept. of Physics and Dr. N. Dastagiri Reddy, Dept. of Chemistry for providing valuable suggestions and constructive criticism on my work.

My profound thanks to Prof. P. Sambasiva Rao, Head of the Department for making available all the facilities required for the experiments. I also acknowledge to Central Instrumentation Facility (CIF), Pondicherry University for the extending the instrumentation facility.

I graciously admit the benevolence of all the faculties of the department Prof. H. Surya Prakash Rao, Prof. K. Anbalagan, Prof. Bidhu Bhusan Das, Dr. Bala Manimaran, Dr. G. Vasuki, Dr. N. Dastagiri Reddy, Dr. M.M. Balakrishnarajan, Dr. C.R. Ramanathann, Dr. Binoy Krishna Saha, Prof. Tharanikkarasu, Dr. C. Sivasankar, Dr. S. Sabiah, Dr. Toka Swu and Dr. R. Padmanaban for their continuous efforts and fruitful discussions, which helped me in enhancing my comprehension.

I greatly acknowledge to Prof. N. Veeraiah, Department of Physics, Acharya Nagarjuna University, Nuzvid campus, whose alacrity and unfailing gusto has encouraged me to consummate in my endeavors and I also thank for extending the help in conductivity measurements.

I would like to thank Prof. D. Narayana Rao, School of Physics, University of Hyderabad for extending the steady state fluorescence and NLO facility. I also thank to Dr. Alok sharan for his help and in useful discussion.

I am thankful to Prof. P. Ramamurthy and Dr. C. Selvaraju, National Centre for Ultrafast Processes (NCUFP) for allowing me to use pico-second lifetime facility.

I am grateful to Prof. N. Satyanarayana for his suggestions, encouragement and extending the lab facilities.

I acknowledge the financial support received from Council of Scientific and Industrial Research (CSIR), New Delhi, for providing Senior Research Fellowship.

I proclaim it to rational to thank the non-teaching staff of the department Mr. Gagan, Mr. Prem, Mr. Dandapani, Mr. Chandru, Mrs. Rekha, Mr. Shanmugam, Mr. Elumalai and Mrs. Nirmala Devi for the timely help and support.

I am thankful to all my Colleagues Mr. Rajesh, Srinu, Soorya, Jisha, Anil, Suresh, Amruta, Mastan, Sumesh, Kumaravel, Rajendran, Venkata Swami, Gnanamani, Karthikeyan, Baktha, Suman, Parthiban, Ramesh, Selva, Mangal, Muthuanna, and Marudu for their company and co-operation and support.

I am thankful to all my Friends and well wishers, Mr. Bhagyaraju, Srikanth, Nirmal, Ashok, Raman, Karthikeyan, Sabari, Prakash, Ramesh, Sreehari, Chari, Ramakrishna, Srikanth, Avinash, Badram, Durga prasad, Manil, Murali, Pavan, Rasheed, Yarra, Nallamuthu, Vinod, Vasanth, Rajesh and Badri for their co-operation and support.

The parental care that I am receiving from my grandparents cannot be overstated; I am ever indebted to them.

Finally, I owe my parents, mama and my sister who played a dominant niche in my life. I thank them for their forbearance, support and the stanch love they have for me, without their blessings this thesis would not have taken shape.

-VENKATRAMAIAH NUTALAPATI
