ACKNOWLEDGEMENT

In the name of Allah, the Most Beneficent and the Most Merciful

I wish to express my utmost thanks to Allah, the Almighty, for bestowing me with His blessings during my entire life. The wisdom and intellect granted to me by the Almighty has been the sole factor in the successful completion of this doctoral thesis.

I want to express my gratitude to my supervisor, Dr. Rashid Umar, Senior Lecturer, Department of Geology, Aligarh Muslim University, Aligarh, whose encouragement, knowledge and guidance went a long way in making this investigation a reality. It is a matter of great privilege for me to accord my most profound thanks and indebtedness to him.

I am thankful to Prof. Mahshar Raza, Chairman, Department of Geology, Aligarh Muslim University, Aligarh for providing all kind of necessary facilities and motivation for the research work.

My heartfelt thanks are due to Dr. Ahsan Absar, Director, Geological Survey of India, Shillong, for kindly going through the manuscript and giving valuable suggestions and advice from time to time.

I am highly grateful to Prof. Sami Ahmed (retired) Department of Geology, Aligarh Muslim University and Dr. Shakeel Ahmed, Senior Scientist National Geophysical Research Institute, Hyderabad, for their invaluable suggestions during the compilation of this thesis.

I am also thankful to Dr. V. Balaram, Head, Geochemical Division, National Geophysical Research Institute, Hyderabad for providing facility to carry out the trace element analysis of the water samples in ICPMS lab of his institute.

The Research Fellowship provided by the INCOH, Ministry of Water Resources, Government of India, immensely helped me in the initial stages of this endeavor. I also wish to acknowledge the financial assistance given by the University Grants Commission under UGC Fellowship Scheme which acted as a catalyst in the successful completion of this thesis.
The data obtained from State Tubwell Department, Central Ground Water Board, State Groundwater Department, Irrigation Department Sugar Cane Research Centre, District Collectorate, and District Statistical Office of Muzaffarnagar is gratefully acknowledged.

I am thankful to my co-researchers, Izrar Ahmed and Fakhre Alam for their continuous involvement in conscientious work of proof reading and editing without any complaint.

I must express my thanks to my friends Haris Hasan Khan, Yusuf Khanday, Salman and Faiz for their cooperation and help at different stages.

I am thankful to Haji Shareef Ahmed, M. Ali Ahmad, and Tanveer, for their cooperation and assistance during several field visits in the study area. Lastly I am also grateful to all staff members of Department of Geology, Aligarh Muslim University, Aligarh for making this endeavor a success.

My parents, brothers and sister deserve special thanks and gratitude for being a constant source of encouragement with their unflinching support and prayers. I profusely thank my uncle, Dr. Shakir Ali Khan and his family for providing the impetus for making this investigation a high-quality work.

(Mohammad Muqtada Ali Khan)
