

## LIST OF TABLES

		Page
I	Geological succession of the Lidder Valley. ....	6
II	Average chemical composition of the Panjal Traps compared with the basaltic rocks of Karroo. ....	25
III	Chemical and normative composition of the Panjal Traps. ....	29
IV	Trace element composition of the Panjal Traps. ....	54
V	Rb, Ba and Sr values of the Panjal Traps compared with these elements in the tholeiitic rocks of different tectonic environments and alkali basalt. ....	65
VI	Lateral variation in the chemical composition of a single flow of the Panjal Traps. ....	74
VII	Chemical composition of the Panjal Traps from different regions of Kashmir compared with the average composition of the Panjal Traps of Lidderwat. ....	74
