

LIST OF FIGURES

	<u>PAGE</u>
Fig. 1 : Principal tectonic features of the Narmada-Son-Tapti lineament zone (after Ravi Shanker, 1991).	2
Fig. 2 : Geological map of the Lower Narmada basin (based on Geological Survey of India, 1 mm = 2 km map, 1962 edition).	3
Fig. 3 : Geological map of the Zeerabad-Jobat area (modified after Blanford, 1869).	10
Fig. 4 : Key to lithology, bedding types and sedimentary structures shown in the graphic lithologs of sections measured in the study area.	15
Fig. 5 : Graphic litholog of the Bagh Group, Dhanora village.	17
Fig. 6 : Graphic litholog of the Bagh Group, northwest of Zeerabad.	19
Fig. 7 : Graphic litholog of the Bagh Group, west of Zeerabad.	21
Fig. 8 : Graphic litholog of the Bagh Group, east of Zeerabad.	23
Fig. 9 : Graphic litholog of the Bagh Group, Ghursul village	25
Fig. 10 : Graphic litholog of the Bagh Group, Karondia village.	27
Fig. 11 : Graphic litholog of the Bagh Group, Baria village.	30
Fig. 12 : Graphic litholog of the Bagh Group, Sitapuri village	32
Fig. 13 : Graphic litholog of the Bagh Group, Mohanpur village.	35
Fig. 14 : Graphic litholog of the Bagh Group, Anjantal village	36
Fig. 15 : Graphic litholog of the Bagh Group, Nandgaon village.	38
Fig. 16 : Graphic litholog of the Bagh Group, Bagh Caves.	40
Fig. 17 : Graphic litholog of the Bagh Group, Padlya village.	44
Fig. 18 : Graphic litholog of the Bagh Group, Jhaba village.	45
Fig. 19 : Graphic litholog of the Bagh Group, Rampura village.	47

(ii)

	<u>PAGE</u>
Fig. 20 : Graphic litholog of the Bagh Group, Mogra village.	49
Fig. 21 : Graphic litholog of the Bagh Group, Talawri village.	51
Fig. 22 : Graphic litholog of the Bagh Group, Jamni village.	52
Fig. 23 : Graphic litholog of the Bagh Group, Dholya-Chiklee village.	54
Fig. 24 : Vertical variation in grain size parameters of the Nimar Sandstone, Zeerabad-Jobat area.	61
Fig. 25 : Q-F-L plot of composition of the Nimar Sandstone (after Folk, 1980), Zeerabad-Jobat area.	69
Fig. 26 : Qt-F-L and Qm-F-Lt plots of composition of the Nimar Sandstones (after Dickinson, 1985), Zeerabad-Jobat area.	72
Fig. 27 : Sediment dispersal patterns of the Bagh Group (based on large-scale cross-bedding azimuths), Zeerabad-Jobat area.	75
Fig. 28 : Graphic logs showing various facies associations, Zeerabad-Jobat area.	115
Fig. 29 : Hypothetical, three dimensional reconstruction of depositional history of the Bagh Group in the Lower Narmada basin.	126
