

## LIST OF TABLES

	<u>PAGE</u>
Table 1 : Stratigraphic sequence of the Lower Narmada basin (modified after Biswas, 1990).	5
Table 2 : Textural parameters of the Nimar Sandstone (Lower Cretaceous), Zeerabad-Jobat area, Lower Narmada basin.	58
Table 3 : Detrital and authigenic mineral composition of the Nimar Sandstone (Lower Cretaceous), Zeerabad-Jobat area, Lower Narmada basin.	63
Table 4 : Percentages of framework modes of Cretaceous Sandstones, Zeerabad-Jobat area (based on Folk, 1980).	68
Table 5 : Percentages of framework modes of Cretaceous Sandstones, Zeerabad-Jobat area (based on Dickinson, 1985).	70
Table 6 : Comparative detrital composition of Cretaceous Sandstones in different parts of the Lower Narmada basin.	71
Table 7 : Percentages of textural constituents of Karondia Limestone, Zeerabad-Jobat area.	78
