CONTENTS

Preface
List of Tables
List of Figures

CHAPTER I  INTRODUCTION
Nature of the problem  3
Aims and objectives  7
Data base and Methodology  10
Critical Account of the work done so far  12

CHAPTER II  TRENDS IN AREA PRODUCTION AND YIELD
General Agricultural Characteristics  24
Trends in Foodgrains  26
Trends in Cereals  27
Trends in Pulses  30
Trends in Cereal Crops  36
Trends in Pulse Crops  54

CHAPTER III  CROPPING PATTERN AND PRODUCTIVITY LEVELS  77
Crop Combination Regions  86
Productivity Levels  88

CHAPTER IV  LEVELS OF AGRICULTURAL GROWTH
Growth and its Measurement  184
Growth in Cereal Production  194
Growth in Pulse Production  198
Growth in Foodgrain Production 203
Growth in Cereal Crops 207
Growth in Pulse Crops 216

CHAPTER-V: SOURCES OF VARIATIONS IN LEVELS AND GROWTH OF AGRICULTURAL PRODUCTIVITY:

A. Environmental
  Impact of Relief on Agricultural land and
  Soil Capability 241
  Scarcity of Rainfall and Survival of Crops 252

B. Technological
  Distribution of Tractors and Threshers 261
  Irrigational Facilities and Water Management 266

C. Institutional Factors
  Size of Land holdings and Level of Productivity 276
  Area of Land by Sectors 281
  Banking Systems 287

CHAPTER-VI: CONCLUSION AND SUGGESTIONS 293-307

BIBLIOGRAPHY 308-318
