With all praise to “God Almighty”...

This research would have been a strewn bundle of hays if it were not for His blessings and few people’s helping hand who kept me anchored all along.

I would like to take this opportunity to express my sincere thanks and gratitude to my guide and supervisor, Dr. S. Noman Ahmad for his time, support and inspiration to prepare this thesis. I am very much grateful for his willingness to help at any point.

I am also grateful to the Chairman of Department of Economics, Dr. Abdul Wahab for providing us the necessary facilities throughout the progress of this work. My efforts would be half baked if I fail to acknowledge the contribution of Prof. Ashok Mittal who in his capacity as a teacher was always there besides me in the time of doldrums.

All teaching and non-teaching staff of Department of Economics, AMU are also acknowledged for doing the needful for me.

It is imperative to thank my friends and classmates for their support at the time of need. I would like to especially thank my batchmates, Mr. Vikas Dixit and Ms. Shaista Parveen for helping me in data collection within a short span of time.

I would like to express gratitude and thanks to all other innumerable people whom I might have forgotten to mention but nevertheless have
played an important role and were an integral part of present work to make it a memorable one.
